International Conference on Innovative Approaches to the Application of Digital Technologies in Education and Research Maria Lapina,G. S. Prakasha,Sergey

Grigoriev,2024-12-26 This book is based on the best papers accepted for presentation during the SLET 2022 International Conference on Innovative Approaches to the Application of Digital Technologies in Education and Research The book includes research on digital pedagogy e learning technologies end to end technologies in education and educational transformation The contributions in this volume highlight the significant advancements and innovative methodologies in digital education The book provides a consolidated research exploration on contemporary themes in education such as digital teaching technologies digital pedagogy and resources gamification and innovations in education with a special focus on educational technology for present and future educators The authors of these papers have explored diverse topics such as artificial intelligence in education the integration of virtual and augmented reality the development of online learning platforms and the impact of digital tools on student engagement and learning outcomes This collection aims to provide educators researchers and practitioners with insights into the latest trends and challenges in digital education It also seeks to inspire further research and innovation in applying digital technologies to enhance teaching and learning experiences As the landscape of education continues to evolve the integration of digital technologies becomes increasingly critical This book addresses a wide range of issues and opportunities offering valuable perspectives on how digital tools can be leveraged to improve educational outcomes and accessibility This book serves as a vital resource for comprehending the future of education and the transformative role digital technologies play in its development By delving into the innovative approaches and cutting edge research presented within readers gain a deeper understanding of how digital advancements are redefining educational practices and enhancing learning experiences The insights provided in this volume help educators develop more effective teaching strategies incorporate new technologies into their curricula and ultimately create more engaging and inclusive learning environments Moreover the book intends to foster new ideas discussions and collaborations that will continue to advance educational technology thus bringing together a diverse array of research and perspectives to encourage a multidisciplinary approach to solving the complex challenges facing modern education

Artificial Intelligence and Evaluation Steffen Bohni Nielsen,Francesco Mazzeo Rinaldi,Gustav Jakob Petersson,2024-09-25 Artificial Intelligence and Evaluation Emerging Technologies and Their Implications for Evaluation is a groundbreaking exploration of how the landscape of program evaluation will be redefined by artificial intelligence and other emerging digital technologies In an era

where digital technologies and artificial intelligence AI are rapidly evolving this book presents a pivotal resource for evaluators navigating the transformative intersection of their practice and cutting edge technology Addressing the dual dimensions of how evaluations are conducted and what is evaluated a roster of distinguished contributors illuminate the impact of AI on program evaluation methodologies Offering a discerning overview of various digital technologies their promises and perils they carefully dissect the implications for evaluative processes and debate how evaluators must be equipped with the requisite skills to harness the full potential of AI tools Further the book includes a number of compelling use cases demonstrating the tangible applications of AI in diverse evaluation scenarios The use cases range from the application of GIS data to advanced text analytics As such this book provides evaluators with inspirational cases on how to apply AI in their practice as well as what pitfalls one must look out for Artificial Intelligence and Evaluation is an indispensable guide for evaluators seeking to not only adapt to but thrive in the dynamic landscape of evaluation practices reshaped by the advent of artificial intelligence

Young People in a Digitalised World Europarat,2018 Youth participation in the digitalised world is nowadays a topic of high interest in the public sphere The authors of this publication aim to bring new perspectives and varied visions to the key questions of understanding how young people interact with all the opportunities the digital space has to offer and how they can use this space for causes relevant not only for themselves but also for the democratisation of the societies in which they live By doing so the authors strive to build knowledge on this topic illustrating how the digitalisation of contemporary European societies simultaneously offers significant opportunities and poses considerable challenges Publisher s description

The Handbook of Sustainability Literacy Arran Stibbe,2009-09 What are the skills people need to survive in the 21st century Among the skills attributes and values described in this volume are values reflection coping with complexity permaculture design transition skills advertising awareness effortless action and ecological intelligence

[BiblioAsia](#) ,2013-04 *Market Analysis for the Development of a Digital Leadership Course for Intergenerational Teams Integrating AI* Leonard Eck,Daniel Knäblein,Jacopo De Biasi,Ana Sofía Esquivel Rivera,Henar Colino Bustinza,2025-03-20 Project Report from the year 2025 in the subject Leadership and Human Resources Management Styles grade 1 3 University of Applied Sciences at Schweinfurt Wirtschaftsingenieurwesen language English abstract The ultimate objective of this project is to conduct a market research analysis identifying what is currently available in the market and what is needed in terms of leadership within intergenerational working environments Additionally the project aims to clarify how AI can be used most effectively as a tool for leadership across different generations With this information the team will be able to provide actionable recommendations ultimately creating the foundational basis for a high end intergenerational leadership course This research explores the development of a leadership course designed to address the complexities of managing intergenerational teams while integrating artificial intelligence AI as a supportive tool Overall the structure of the report is based on the way the research question is formulated The seminar paper begins with a literature review that

outlines foundational theories of leadership examines generational differences and highlights AI's potential role in enhancing leadership practices Following this a market analysis identifies current trends and offerings in leadership training programs The methodology chapter details the mixed methods approach combining surveys and expert interviews to gather both quantitative and qualitative insights The data collection and analysis sections present key findings on leadership qualities communication styles and preferences across generations offering data driven insights into course design Finally the discussion and conclusion provide actionable recommendations to create a competitive and adaptable training program

Harnessing the Fourth Industrial Revolution, 2019 **Digital Literacy Unpacked** Katharine Reedy, Jo Parker, 2017-12-16 Digital Literacy Unpacked demonstrates the importance of digital literacy in all areas of life the centrality of critical thinking a key element of both digital and information literacy and the essential role of library and information professionals in leading digital literacy developments Information Communication Technologies Craig Van Slyke, 2008 Information Communication Technologies Concepts Methodologies Tools and Applications is the essential compilation of breaking research in the pivotal areas of social adaptation to information technology This all inclusive reference source examines through case studies empirical analysis and conceptual models the successes and consequences associated with the growth of information communication technologies in the world today *New Horizon of Psychological Assessment in Education* Melissa Lee Yen Abdullah Ng, 2019 **Poor But Spirited In Karimnagar** Sumita Dawra, 2013-12-01 The difficulty of finding solutions After six decades of policy making and planning that appear perfect on paper vast pockets of poverty persist across the country accompanied by low human development indices In Poor but Spirited in Karimnagar Sumita Dawra recounts her experiences as collector in the district of Karimnagar in Andhra Pradesh and grapples with the question of why even with crores of rupees of government funding well meaning implementing agencies and constructive action this wide gap between intention and results continues The stories cover diverse populations from child labour to cotton farmers from coal miners to malnourished power loom weavers They traverse the thick Naxal infested forests course along the Godavari and meander through the multiple urban worlds of Ramagundem and the dry upland areas of Sircilla examining the key issues that need to be addressed Each chapter divided into three sections identifying the problem providing the context and offering the solution along with a useful statistical guide that provides a quick overview looks at the key points of lacunae in service delivery in the concerned areas and provides a starting point for a more effective engagement in the tackling of the problems Based on successful models of governance within the country and elsewhere this book from a seasoned bureaucrat offers a fresh contemporary perspective on administration and governance **You to the Power of Two** Joseph Bradley, Don Tapscott, 2025-12-02 A new and previously unexplained era of artificial intelligence will transform human life forever Discover what this means for our personal identity and our future AI tools are already reshaping the way we work and communicate but as they gain autonomy they will no longer be mere tools they will become

active participants in our world As our digital identities become smarter and more capable we enter the age of identic AI a world where ever present AI companions streamline daily tasks enhance wellbeing and offer lifelong learning For professionals these intelligent agents will amplify creativity boost productivity and expand human potential But with this extraordinary promise comes profound risks to individuals businesses and society itself From technology experts Joseph M Bradley and Don Tapscott *You to the Power of Two* is a thought provoking and timely guide that will prepare readers to thrive in world of personal Ai agents by Revealing how our new digital sidekicks will transform our careers healthcare education and relationships Empowering readers to embrace AI with confidence and purpose rather than fear Exploring AI s role in redefining human potential success and the institutions of society Explaining self sovereign identity and decentralized AI models that will safeguard autonomy control and future For individuals businesses and policymakers alike identic AI will reshape how we work learn and connect Will we harness its power for a more equitable future or will we let it shape us in ways we can t control The future isn t written It s ours to create *Summary of Legislation ...* California. Legislature. Senate. Committee on Education,2017 **African Journal of Library, Archives & Information Science** ,2002
