Disease Control Priorities Third Edition Volume 1 Essential Surgery:

Disease Control Priorities, Third Edition (Volume 1) Haile T. Debas, Peter Donkor, Atul Gawande, Dean T.

Jamison, Margaret E. Kruk, Charles N. Mock, 2015-03-23 Essential Surgery is part of a nine volume series for Disease Control Priorities which focuses on health interventions intended to reduce morbidity and mortality The Essential Surgery volume focuses on four key aspects including global financial responsibility emergency procedures essential services organization and cost analysis

Disease Control Priorities, Third Edition (Volume 9) Dean T. Jamison, Hellen Gelband, Susan Horton, Prabhat Jha, Charles N. Mock, Rachel Nugent, 2017-12-06 As the culminating volume in the DCP3 series volume 9 will provide an overview of DCP3 findings and methods a summary of messages and substantive lessons to be taken from DCP3 and a further discussion of cross cutting and synthesizing topics across the first eight volumes The introductory chapters 1 3 in this volume take as their starting point the elements of the Essential Packages presented in the overview chapters of each volume First the chapter on intersectoral policy priorities for health includes fiscal and intersectoral policies and assembles a subset of the population policies and applies strict criteria for a low income setting in order to propose a highest priority essential package Second the chapter on packages of care and delivery platforms for universal health coverage UHC includes health sector interventions primarily clinical and public health services and uses the same approach to propose a highest priority package of interventions and policies that meet similar criteria provides cost estimates and describes a pathway to UHC

Disease Control Priorities, Third Edition (Volume 2) Robert Black, Ramanan Laxminarayan, Marleen Temmerman, Neff Walker, 2016-04-11 The evaluation of reproductive maternal newborn and child health RMNCH by the Disease Control Priorities Third Edition DCP3 focuses on maternal conditions childhood illness and malnutrition Specifically the chapters address acute illness and undernutrition in children principally under age 5 It also covers maternal mortality morbidity stillbirth and influences to pregnancy and pre pregnancy Volume 3 focuses on developments since the publication of DCP2 and will also include the transition to older childhood in particular the overlap and commonality with the child development volume The DCP3 evaluation of these conditions produced three key findings 1 There is significant difficulty in measuring the burden of key conditions such as unintended pregnancy unsafe abortion nonsexually transmitted infections infertility and violence against women 2 Investments in the continuum of care can have significant returns for improved and equitable access health poverty and health systems 3 There is a large difference in how RMNCH conditions affect different income groups investments in RMNCH can lessen the disparity in terms of both health and financial risk

Disease Control Priorities, Third Edition (Volume 3) Hellen Gelband, Prabhat Jha, Rengaswamy Sankaranarayanan, Susan Horton, 2015-10-29 Volume 3 Cancer presents the complex patterns of cancer incidence and death around the world and evidence on effective and cost effective ways to control cancers The DCP3 evaluation of cancer will indicate where cancer treatment is ineffective and wasteful and offer alternative cancer care packages that are cost effective and suited to low

resource settings Main messages from the volume include Quality matters in all aspects of cancer treatment and palliation Cancer registries that track incidence mortality and survival paired with systems to capture causes of death are important to understanding the national cancer burden and the effect of interventions over time Effective interventions exist at a range of prices Adopting resource appropriate measures which allow the most effective treatment for the greatest number of people will be advantageous to countries Prioritizing resources toward early stage and curable cancers is likely to have the greatest health impact in low income settings Research prioritization is no longer just a global responsibility Providing cancer treatment requires adequate numbers of trained healthcare professionals and infrastructure beyond what is available in most LMICs especially low income countries Careful patient monitoring is a requirement of good quality cancer care and this often involves laboratory tests in addition to clinical examination Even if financing were immediately available to build or expand a cancer control system reaching capacity will take many years

Global Cleft Care in Low-Resource Settings Jordan W.

Swanson, 2021-04-05 Cleft lip and palate represents the most common congenital facial anomaly Congenital anomalies are one of the top 10 causes of disability and suffering in many low and middle income countries LMICs Further an estimated 30% of the global burden of disease is treated primarily through surgery and among surgical conditions treating clefts conveys disproportionately large benefit relative to cost because suffering can be halted at a young age and deliver a lifetime

of health Over the last 50 years cleft care has advanced in low resource settings through international surgical missions and the efforts of sparse local providers While exciting anecdotes of impact abound from these efforts recent studies have identified a complication rate that often exceeds 50% and there is concern about the sustainability of foreign volunteer missions This book serves as a thorough resource for providing medical and surgical care of cleft lip and palate deformities in low resource settings geared to the context of those settings The content is consensus based and evidence based with emphasis on treatment that is appropriate to a low resource context and how this differs from that in higher resource environments It is authored by recognized cleft experts in close partnership with providers who practice in low resource settings It is heavily pictorially based through illustrative figures photos and diagrams to be facile for those who speak English as a second language Following the introduction Complete Cleft Care in Low Resource Settings has six main sections patient workup surgical treatment comprehensive care educational innovation care delivery models and finally a series of illustrative case studies Uniquely the book s breadth encompasses cleft care comprehensively but does so through a practical how to format with many from the field examples of what has worked
