Displacing Whiteness Essays In Social And Cultural Criticism 1st First Edition:

The Palgrave Handbook of Theatre and Race Tiziana Morosetti, Osita Okagbue, 2021-04-20 The first comprehensive publication on the subject this book investigates interactions between racial thinking and the stage in the modern and contemporary world with 25 essays on case studies that will shed light on areas previously neglected by criticism while providing fresh perspectives on already investigated contexts Examining performances from Europe the Americas the Middle East Africa China Australia New Zealand and the South Pacific islands this collection ultimately frames the history of racial narratives on stage in a global context resetting understandings of race in public discourse *Understanding and Managing Sophisticated and Everyday Racism* Victoria Showunmi, Carol Tomlin, 2022-03-31 Sophisticated Racism Understanding and Managing the Complexity of Everyday Racism adopts a fresh approach to the study of racism Victoria Showunmi and Carol Tomlin identify the prevalence of sophisticated racism and explore how it manifests itself in society particularly in the workplace The authors narrate examples of everyday racism from the lived experiences of Black women They take the reader on a compelling journey from the sources of racism through narratives of disquieting racist events to the destination of affirming approaches to preserving a sense of self and individual identity in the face of sophisticated racism The authors explain how the interplay between Black women and White women originates in historical patterns of behavior which emerged on the plantations during enslavement The term White women syndrome has been coined to represent attempts to defend the limited space for female success by denigrating and excluding Black women A unique feature of the book is that it reaches beyond the historical context to the provision of strategies for managing sophisticated and everyday racism in contemporary society *Displacing Whiteness* Ruth Frankenberg, 1997-09-22 A collection of anti racist critical essays on the specific localized constructions of whiteness white identities and white privilege edited by the author of the very successful *White Women Race Matters* U Minn *Handbook of Feminist Family Studies* Sally A. Lloyd, April L. Few, Katherine R. Allen, 2009-04-14 The Handbook of Feminist Family Studies presents the important theories methodologies and practices in feminist family studies The editors showcase feminist family scholarship providing both a retrospective and a prospective overview of the field and creating a scholarly forum for interpretation and dissemination of feminist work Racism Albert J. Wheeler, 2005 Of all mankind's vices racism is one of the most pervasive and stubborn Success in overcoming racism has been achieved from time to time but victories have been limited thus far because mankind has focused on personal economic gain or power grabs ignoring generosity of the soul This bibliography brings together the literature On Video Games Soraya Murray, 2017-10-30 Today over half of all American households own a dedicated game console and gaming industry profits trump those of the film industry worldwide In this book Soraya Murray moves past the technical discussions of games and offers a fresh and incisive look at their cultural dimensions She critically explores blockbusters like *The Last of Us* *Metal Gear Solid* *Spec Ops* *The Line* *Tomb Raider* and *Assassin's Creed* to show how they are deeply entangled with American

ideological positions and contemporary political cultural and economic conflicts As quintessential forms of visual material in the twenty first century mainstream games both mirror and spur larger societal fears hopes and dreams and even address complex struggles for recognition This book examines both their elaborately constructed characters and densely layered worlds whose social and environmental landscapes reflect ideas about gender race globalisation and urban life In this emerging field of study Murray provides novel theoretical approaches to discussing games and playable media as culture Demonstrating that games are at the frontline of power relations she reimagines how we see them and more importantly how we understand them Journal of International Students 2017 Vol 7 Issue 2 JIS Editors,2017-02-04 An interdisciplinary peer reviewed publication Journal of International Students is a professional journal that publishes narrative theoretical and empirically based research articles study abroad reflections and book reviews relevant to international students faculty scholars and their cross cultural experiences and understanding in higher education The Journal audience includes international and domestic students faculty administrators and educators engaged in research and practice in international students in colleges and universities More information on the web <http://jistudents.org> Annual Editions Fred Schultz,2003-12 This eleventh volume of articles have been selected from the best of the public press The readings offer samples from the most recent journal literature The articles include topics on teacher education in multicultural perspective the social contexts of multicultural education and curriculum and instruction in multicultural perspective Visit our student web site www.dushkin.com online for additional support of Annual Editions titles *Multicultural Education* ,2001

Environment and Planning ,2001 International interdisciplinary journal discussing the relations between Society and Space Space is broadly conceived from landscapes of the body to global geographies from cyberspace to old growth forests as metaphorical and material as theoretical construct and empirical fact Covers both practical politics and the abstractions of social theory *United States Relations with South Africa* Y. G.-M. Lulat,2008 Relations between the United States and South Africa or the parts of the world these nations now occupy go nearly as far back as the very beginning of their inception as permanent European colonial intrusions This book is a critical overview of these relations from the late seventeenth century to the present Unprecedented in its scope and supported by substantive and detailed notes together with an extensive bibliography chronology glossary and appendices the book distinguishes itself from extant works in a number of other ways Set against the backdrop of a wider interdisciplinary exploration of both ideational and structural issues of historical context it not only gives attention to the importance of contributions from nonofficial actors in shaping official relations but also considers the impact of the geo political location of South Africa within southern Africa where the presence of other nations particularly Angola Mozambique Namibia and Zimbabwe looms large Methodologically written from the perspectives of both traditional narrative history and Khaldunian interpretive historical analysis the book consequently sits at the interdisciplinary interstice of political economy and sociology where the aim is to advance our understanding of the

Braudelian interconnectedness of world history as an important diachronic determinant of the diplomacy of foreign relations

Written for both scholars and policy analysts this book's examination of the agency of the marginalized should also be of interest to activists and the reading public

Look, A White! George Yancy, 2012-05-06 Look a White returns the problem of whiteness to white people Prompted by Eric Holder's charge that as Americans we are cowards when it comes to discussing the issue of race noted philosopher George Yancy's essays map out a structure of whiteness He considers whiteness within the context of racial embodiment film pedagogy colonialism its danger and its position within the work of specific writers Identifying the embedded and opaque ways white power and privilege operate Yancy argues that the Black counter gaze can function as a gift to whites in terms of seeing their own whiteness more effectively Throughout *Look a White* Yancy pays special attention to the impact of whiteness on individuals as well as on how the structures of whiteness limit the

capacity of social actors to completely untangle the way whiteness operates thus preventing the erasure of racism in social life
