## **Dispute Resolution In The Energy Sector A Practitioners Handbook:**

**Dispute Resolution in the Energy Sector** Ronnie King, 2012-05-01 This title provides a practical user friendly overview of the essentials of dispute resolution in the energy industry Leading practitioners from international law firms and global companies consider among other things the drafting of dispute resolution clauses the effective use of international arbitration the management of large scale energy disputes and the development of case law in oil and gas disputes construction disputes environmental disputes and disputes arising in the renewables and nuclear sectors **Governing**

**Law and Dispute Resolution in the Oil and Gas Industry** Pereira, Eduardo G., Timonen, Tuuli, Aleynikova, Elina, 2022-08-23 The oil and gas industry's wide international exposure and constantly changing landscape leave it particularly vulnerable to disputes As this practical book demonstrates the risks associated with disputes can be mitigated by parties utilising governing law and dispute resolution clauses in contractual agreements within the sector Examining a global range of jurisdictions the book offers clear guidance on the most appropriate choice of law and choice of dispute resolution forum for oil and gas contracts analysing the key issues and defining the legal contours involved **The Cambridge**

**Handbook of Judicial Control of Arbitral Awards** Larry A. DiMatteo, Marta Infantino, Nathalie M-P Potin, 2020-10-29 A unique collaboration between academic scholars legal practitioners and arbitrators this handbook focuses on the intersection of arbitration as an alternative to litigation and the court systems to which arbitration is ultimately beholden The first three parts analyze issues relating to the interpretation of the scope of arbitration agreements arbitrator bias and conflicts of interest arbitrator misconduct during the proceedings enforceability of arbitral awards and the grounds for vacating awards The next section features fifteen country specific reviews which demonstrate that despite the commonality of principles at the international level there is a significant amount of differences in the application of those principles at the national level This work should be read by anyone interested in the general rules and principles of the enforceability of foreign arbitral awards and the grounds for courts to vacate or annul such awards *International Arbitration in the Energy Sector* Maxi Scherer, 2018-02-22 Disputes in the energy and natural resources sector are at the heart of international arbitration With more arbitrations arising in the international energy sector than in any other sector it is not surprising that the highest valued awards in the history of arbitration come from energy related arbitrations Energy disputes often involve complex and controversial issues relating to security sovereignty and public welfare International Arbitration in the Energy Sector puts international energy disputes into a global context providing broad coverage of different forms and systems of dispute resolution across both renewable and non renewable sectors With contributions from leading arbitrators academics and industry experts from across the globe the twenty chapters in the book enable readers to compare the approaches to and learnings from energy arbitrations across various legal systems and geographic regions After outlining the international energy arbitration legal framework in Part I the text delves into a detailed analysis of the problems which regularly arise in

practice These include among other things commercial disputes in Part II e g over the upstream oil sector and long term gas supply contracts investor state disputes in Part III e g under the Energy Charter Treaty and public international law disputes in Part IV e g concerning international boundaries and the distribution of natural resources Alongside recent developments in the international energy sector attention is given to climate and sustainable development disputes which raise important questions about enforcing sustainability objectives on individuals corporations and states Backed by analyses of arbitral awards national court and international tribunal decisions treaties and other international legal instruments as well as current events and news in the energy industry this text offers a unique contribution to international energy literature and provides insightful commentary on the prevalent issues in the field It is essential reading for any practitioner or researcher in the energy and natural resources sector
