Environmental Law and Economics Klaus Mathis, Bruce R. Huber, 2017-04-07 This anthology discusses important issues surrounding environmental law and economics and provides an in depth analysis of its use in legislation regulation and legal adjudication from a neoclassical and behavioural law and economics perspective Environmental issues raise a vast range of legal questions to what extent is it justifiable to rely on markets and continued technological innovation especially as it relates to present exploitation of scarce resources Or is it necessary for the state to intervene Regulatory instruments are available to create and maintain a more sustainable society command and control regulations restraints Pigovian taxes emission certificates nudging policies etc If regulation in a certain legal field is necessary which policies and methods will most effectively spur sustainable consumption and production in order to protect the environment while mitigating any potential negative impact on economic development Since the related problems are often caused by scarcity of resources economic analysis of law can offer remarkable insights for their resolution Part I underlines the foundations of environmental law and economics Part II analyses the effectiveness of economic instruments and regulations in environmental law Part III is dedicated to the problems of climate change Finally Part IV focuses on tort and criminal law The twenty one chapters in this volume deliver insights into the multifaceted debate surrounding the use of economic instruments in environmental regulation in Europe

Global Trends in Governance and Policy Paradigms Hamdan, Mahani, Anshari, Muhammad, Ahmad, Norainie, Ali, Emil, 2024-04-09 Major paradigm shifts are occurring at rates that are difficult to keep up with such as a rise in neoliberal paradigm trends the emergence of new paradigms in response to global challenges the role of international organizations in promoting new policy paradigms and the challenges of implementing new policy paradigms in different national contexts To remain informed a reference of these shifts is needed Global Trends in Governance and Policy Paradigms dissects the intricate fabric of global governance through the lens of evolving policy paradigms This book explores key themes that have shaped and continue to influence the trajectory of global policy and contemporary governance The narrative unfolds by scrutinizing the ascendancy of the neoliberal paradigm and dissecting its impact on global governance structures Beyond this the text navigates through the

dynamic responses of the international community to emerging global challenges highlighting the role of influential international organizations in shaping and propagating innovative policy paradigms This book establishes a comprehensive framework for understanding evidence based policymaking a crucial facet in the evolving discourse of global governance Each chapter meticulously examines diverse dimensions from the intersection of artificial intelligence and public policy to the intricacies of Islamic governance and the implications of emerging technologies on regulatory frameworks

Migration and Development in Africa Steve Tonah,Mary Boatemaa Setrana,John A. Arthur,2017-08-28 There are only a few studies that analyze the complex relationship between Migration and development in Africa The book presents the main trends in African migration since the last two decades It analyzes the major migration trends the various migration hubs across the continent and the underlying factors explaining the changing nature of migration across the continent A few of the chapters in the book examine the phenomenon of migration from a national perspective by focusing on migration trends in countries such as Ghana Cameroon Kenya and Nigeria Two chapters examine the migration links between Africa and Europe with one of them focusing on the political links between Ghana and the Netherlands while the other focuses on economic exchanges between the Cameroonian diaspora in Germany and selected groups and organizations in Cameroon The uniqueness of this book lies in the varied disciplinary viewpoints used by the authors in explaining the phenomenon of migration and development in Africa The authors are specialists in the fields of sociology anthropology geography history philosophy and migration studies Examining migration from so many different perspectives enriches the analysis and brings in new insights that would otherwise have been missing with the use of a single

disciplinary perspective The book recommends the need for policy coordination by national governments of both origin and destination countries to manage the size and composition of migrants Most migrant receiving countries prefer to receive professionals and persons with the required skills and training while keeping out the bulk of untrained and lowly skilled persons The result of this is that most migrants leave their countries and enter their destination countries illegally swelling the numbers of undocumented immigrants

Exploring Silence and Absence in Discourse Melani Schröter,Charlotte Taylor,2017-12-18 This book fills a significant gap in the field by addressing the topic of absence in discourse It presents a range of proposals as to how we can identify and analyse what is absent and promotes the empirical study of absence and silence in discourse The authors argue that these phenomena should hold a more central position in the field of discourse and discuss these two topics at length in this innovative edited collection It will appeal to students and scholars interested in discourse analysis and critical discourse analysis

Climate Change, Migration and Conflict in Bangladesh Md Rafiqul Islam,2023-08-18 This book explores the relationship between climate change induced migration and conflict in Bangladesh one of the most ecologically fragile countries in the world It explores why people migrate from their original place of land and how the migration of people with a different background to an ethnically distinctive region due to environmental changes can become a source of conflict and violence between the host peoples and migrants The volume focuses on the Chittagong Hill Tracts CHT which has experienced long standing ethnopolitical conflict due to the settlement and migration of the Bengali people from the plain land of Bangladesh This settlement and migration were mainly caused climatic events such as floods cyclones sealevel rise and disasters It traces the history of the ethnic conflict in the region and presents key findings from the field as well as the dynamics of everyday politics in the region This volume also highlights how internally climate displaced people generate violence and civil strife in the major urban cities through their settlements in slums The volume will be of great interest to scholars and researchers of environmental studies human geography migration and diaspora studies public policy social anthropology and South Asian studies

Economics of Natural Disasters Prarthna Agarwal Goel,Joyita Roy Chowdhury,Charu Grover Sharma,Yashobanta Parida,2024-08-08 This book is a machine generated literature overview that explores the theoretical and empirical aspects of economics of natural disasters such as floods cyclones droughts and earthquakes from a policy perspective It provides a comprehensive collection of economic theories in Disasters and empirical findings that would benefit scholars in academia and policy making On the theory side there is a growing use of game theory Input Output computable general equilibrium models and Catastrophe models to analyze the economic impacts of natural disasters These models provide optimal decisions for the government concerning disaster relief On the empirical front studies showing causal and associative relationships between disasters and socio economic variables are important for estimating disaster related losses and making appropriate policy suggestions The book explores different critical aspects and interlinkages of natural disasters economic social and political Besides having localized effects disasters

influence macroeconomic parameters such as impacts on international trade and foreign direct investment Moreover the effects of disasters are subject to interventions from various national and international agencies It discusses fiscal pressures caused due to disasters and existing policies related to disaster risk mitigation and management as a guide to policy making It is an important guide to researchers and policymakers examining the socio economic impact of natural disasters and public investment for disaster risk mitigation

Just Security in an Undergoverned World William Durch,Joris Larik,Richard Ponzio,2018-01-19 *Just Security in an Undergoverned World* examines how humankind can manage global problems to achieve both security and justice in an age of antithesis Global connectivity is increasing visibly and invisibly in trade finance culture and information helping to spur economic growth technological advance and greater understanding and freedom but global disconnects are growing as well Ubiquitous electronics rely on high value minerals scraped from the earth by miners kept poor by corruption and war People abandon burning states for the often indifferent welcome of wealthier lands whose people in turn draw into themselves Humanity's very success underwritten in large part by lighting up gigatons of long buried carbon for 200 years now threatens humanity's future The global governance institutions established after World War II to manage global threats especially the twin scourges of war and poverty have expanded in reach and impact while paradoxically losing the political support of some of their wealthiest and most powerful members Their problems mimic those of their members in struggling to adapt to new problems and maintain trust in norms and public bodies This volume argues however that a properly mandated managed and modernized global architecture offers unparalleled potential to midwife solutions to intractable issues from violent conflict and climate change to poverty and pandemic disease that transcend borders and the capacities of individual actors It offers just security as a new framework for charting innovating solutions and strategies for effective and essential global governance

Life Adrift Andrew Baldwin,Giovanni Bettini,2017-05-24 *Life Adrift* critically engages with two of the most defining issues of our contemporary global political economy migration and climate change In their own right both are discrete areas of politics theory practice and resistance But as climate and migration are increasingly imagined together as a singular relation they are giving rise to new horizons of meaning in politics philosophy media art and literature *Life Adrift* is a collection of essays from across the interpretive social sciences and humanities which treats climate change and migration as a relation that demands theoretical and historical explanation rather than a problem requiring technical and expert solutions The result is a unique collection offering readers a means for reconceptualising migration and environmental changes as a site of politics and of political possibility Along the way it addresses a range of topics current in

cultural and political theory including democracy place neoliberalism humanism materiality borders affect race and sexuality If climate change stands to redistribute humans and material across the globe then *Life Adrift* offers a set of critical resources for analysing this coming phenomenon and reimagining what it might mean to be political in a fully immanent world of bodies in flux *Routledge Handbook of Environmental Displacement and Migration* Robert McLeman, François

Gemenne, 2018-03-09 The last twenty years have seen a rapid increase in scholarly activity and publications dedicated to environmental migration and displacement and the field has now reached a point in terms of profile complexity and sheer volume of reporting that a general review and assessment of existing knowledge and future research priorities is warranted So far such a product does not exist The *Routledge Handbook of Environmental Displacement and Migration* provides a state of the science review of research on how environmental variability and change influence current and future global migration patterns and in some instances trigger large scale population displacements Drawing together contributions from leading researchers in the field this compendium will become a go to guide for established and newly interested scholars for government and policymaking entities and for students and their instructors It explains theoretical conceptual and empirical developments that have been made in recent years describes their origins and connections to broader topics including migration research development studies and international public policy and law and highlights emerging areas where new and or additional research and reflection are warranted The structure and the nature of the book allow the reader to quickly find a concise review relevant to conducting research or developing policy on particular topics and to obtain a broad reliable survey of what is presently known about the subject *Environmental Conflicts, Migration and Governance* Tim

Krieger, Diana Panke, Michael Pregernig, 2020-01-29 EPUB and EPDF available Open Access under CC BY NC ND licence The globalized era is characterized by a high degree of interconnectedness across borders and continents and this includes human migration Migration flows have led to new governance challenges and at times populist political backlashes A key driver of migration is environmental conflict and this is only likely to increase with the effects of climate change Bringing together world leading researchers from across political science environmental studies economics and sociology this urgent book uses a multifaceted theoretical and methodological approach to delve into core questions and concerns surrounding migration climate change and conflict providing invaluable insights into one of the most pressing global issues of our time

Research Handbook on Climate Change, Migration and the Law Benoît Maye, François Crépeau, 2017-10-27 This comprehensive *Research Handbook* provides an overview of the debates on how the law does and could relate to migration exacerbated by climate change It contains conceptual chapters on the relationship between climate change migration and the law as well as doctrinal and prospective discussions regarding legal developments in different domestic contexts and in international governance *Research Handbook on Climate Change, Migration and the Law (Introduction)*. Benoit Mayer, 2019 This Handbook seeks to provide an overview of the myriad of ideas and debates that emerged in recent years on

climate change migration and the law What is often reduced to the simple terms such as climate migration or climate refugees emerged as a rather complex theme Climate change affects human mobility in multiple ways often indirectly and always within the context of particular societies and communities It is not always possible to identify specific scenarios of climate migration and a fortiori to single out climate migrants In turn these conceptual intricacies make it more difficult to analyse how existing law applies to and how new laws and policies could relate to what should perhaps best be called the climate migration nexus As editors we were committed to giving voice to different views even if those could be conflicting rather than pushing for a particular narrative of our taste We thus leave it to the readers to weigh multiple arguments through further research Thus the chapters gathered in this Handbook are written by authors from different backgrounds and perspectives to reflect the multiple on going discussions on the topic These chapters develop diverse and sometimes conflicting understandings of among others the implications of climate change for human mobility terminological choices and views about desirable steps to be taken This introduction provides a general background to the chapters that follow A first section discusses some difficulties in conceptualizing the climate migration nexus A second section offers a broad overview of relevant legal developments A third section examines the political and normative implications of discussions on the climate migration nexus A fourth section presents the outlines of this Handbook

Climate Change and Securitization of Migration

Sonali Narang, 2017-10-04 Master's Thesis from the year 2011 in the subject Earth Science Geography Geopolitics Panjab University language English abstract Human beings have always migrated in search of better opportunities and better life Migrations are also well tested strategies followed by various communities to adapt to various calamities and disasters Most of civilizations e.g. ancient Egyptian and Indus Valley civilizations have come up as a result of people migrating to river valleys It was only with the emergence of modern nation states system particularly after the treaty of Westphalia that new notion of legality and illegality got attached to the process of migration boundaries became rigid and exclusive and the flows of people became an issue of Others and Othering In short the history of mobility is much longer than the history of Westphalian territoriality and borders In the present era climate change is becoming the defining factor in human migration The current dominant geopolitical narratives and framings of climate change tend to focus on the impacts of climate change on potential drivers of conflict such as population movements border disputes and access to food water energy and other scarce resources It is against the backdrop of a whirlpool of highly imaginative and alarmist geographies of a catastrophic climate change that a new and highly contested concept of climate refugee has emerged Those who are forced to leave their native land by the global climate change are now described as climate migrants for want of a better term Millions of people around the globe are said to be at risk of displacement due to climate change being forced to leave their homelands temporarily or permanently It is believed that nine out of every ten disasters are somehow related to climate change It has become an accepted fact among the international community that climate change is going to result in large number of

displacement The Inter Governmental Panel on Climate Change IPCC has minced no words in warning that The impacts of climate change on Asia will place additional stress on socioeconomic and physical systems A further demographic response will come about through the risk of extreme events on human settlements If the incidence and magnitudes of events such as droughts and coastal floods increase there could be large scale demographic responses for example through migration IPCC Working Group 2 2007 *Negotiating Migration in the Context of Climate Change* NASH., Sarah Louise Nash, Assessing migration in the context of climate change Nash draws on empirical research to offer a unique analysis of policy making in the field This detailed account is a vital step in understanding the links between global discourses on human mobilities climate change and specific policy responses **Environmental Migration and Social Inequality** Robert McLeman, Jeanette Schade, Thomas Faist, 2015-12-16 This book presents contributions from leading international scholars on how environmental migration is both a cause and an outcome of social and economic inequality It describes recent theoretical methodological empirical and legal developments in the dynamic field of environmental migration research and includes original research on environmental migration in Bangladesh Burkina Faso China Ghana Haiti Mexico and Turkey The authors consider the implications of sea level rise for small island states and discuss translocality gender relations social remittances and other concepts important for understanding how vulnerability to environmental change leads to mobility migration and the creation of immobile trapped populations Reflecting leading edge developments this book appeals to advanced undergraduate and graduate students researchers and policymakers **Climate Change, Disasters and People on the Move** Aylin Yildiz Noorda, 2022-11-07 The open access publication of this book has been published with the support of the Swiss National Science Foundation Climate change is forcing us to consider the right of people to leave their disappearing homelands and the shape this right should take Climate Change Disasters and People on the Move proposes international protection as a solution with three pillars granting protection against return to the country of origin non refoulement preventing future displacement and facilitating safe orderly and regular migration in the context of disasters and climate change Dr Aylin Yildiz Noorda uses the theories of common concern of humankind and community interests to operationalise her proposal providing a blueprint for future claims
