Dissociation In Children And Adolescents A Developmental Perspective:

Dissociation in Children and Adolescents Frank W. Putnam, 1997-08-08 Illustrates the critical association between pathological dissociation and trauma and provides a clear synthesis of what is known about the psychobiology of dissociative disorders and the effects of pathological dissociation on cognition and memory Amply illustrated with clinical vignettes it also offers an array of diagnostic and treatment techniques *Techniques and Issues in Abuse-Focused Therapy with Children & Adolescents* Sandra Wieland, 1998-09-22 How can therapists deal effectively with children or adolescents who have been sexually abused but refuse to discuss their experiences Working with such young people presents innumerable challenges for the therapist In this book Sandra Wieland describes The Internalization Model which provides a framework to help therapists understand the effects of sexual abuse on children s or adolescents internal sense of self and world even when the child does not talk about the abuse Ways of addressing and shifting these abuse related internalizations within the therapy are described together with specific techniques such as imaging genograms and time lines Other topics explored include sexuality dissociation and resistance by the c *Play and Development* Artin Goncu, Suzanne Gaskins, 2007-01-15 Children s play is a universal human activity and one that serves a significant purpose in personal development Throughout this volume which is an extension of the 33rd Annual Meeting of the Jean Piaget Society the editors and contributors explore assumptions about play and its status as a unique and universal activity in humans As a whole Play [Handbook of Psychological Injury and Law](#) Gerald Young, Tyson Bailey, Luciano Giromini, Jason R. Soble, Richard Rogers, Brian Eliot Levitt, 2025-01-25 This book provides a comprehensive presentation of psychological problems such as posttraumatic stress depression and chronic pain that are the result of injury or trauma and legal proceedings such as tort after motor vehicle collisions It stresses the complex nature of these disabilities particularly in the judicial setting and the critical task of accurately assessing and diagnosing the extent of the injury Assessments involve the use of standardized tests including those that assess for negative response bias and possible malingering The chapters that follow cover key psychological disorders and explore their effects in a range of populations which can vary by age sex and minority or racial status It encompasses international perspectives and emphasizes the importance of relevant factors that affect assessment rehabilitation and compensation It is ideal for psychologists and mental health professionals working in in a field that requires a comprehensive scientifically informed impartial approach to assessment that will stand up in court This book provides a comprehensive presentation of psychological problems such as posttraumatic stress depression and chronic pain that are the result of injury or trauma and legal proceedings such as tort after motor vehicle collisions It stresses the complex nature of these disabilities particularly in the judicial setting and the critical task of accurately assessing and diagnosing the extent of the injury Assessments involve the use of standardized tests including those that assess for negative response bias and possible malingering The chapters that follow cover key psychological disorders and explore their effects in a range of populations which can vary by age sex

and minority or racial status It encompasses international perspectives and emphasizes the importance of relevant factors that affect assessment rehabilitation and compensation It is ideal for psychologists and mental health professionals working in a field that requires a comprehensive scientifically informed impartial approach to assessment that will stand up in court

The Emotional and Behavioral Impact of Sexual Abuse on Children Cassandra Louisa Kiesel, 1998 The role of dissociation as a mediator of childhood sexual abuse and emotional and behavioral mental health outcomes was investigated The sample consisted of 114 children and adolescents ages 11-18 years who were wards of the Illinois Department of Children and Family Services DCFS and currently living in state supervised residential treatment centers apart from their families This study assessed the relationship between varied histories of childhood abuse sexual abuse physical abuse combined physical and sexual abuse dissociative responses and a variety of psychiatric outcomes using a multimethod design Children were interviewed directly using several structured assessment tools and their present caregivers i.e. residential staff were asked to complete questionnaires A retrospective chart review was also used as an additional perspective on children's history and current functioning Results indicated that sexual abuse was significantly associated with dissociation compared to other types of abuse history Both sexual abuse and dissociation were independently associated with a several indicators of emotional and behavioral disturbance and risk taking behaviors Finally dissociation was frequently a significant covariate for sexual abuse and psychiatric status For instance dissociation was a significant covariate for one measure of overall symptomatic functioning previously significant main effects for sexual abuse disappeared after controlling for dissociation These results were replicated across several assessment sources and different perspectives Therefore dissociation appears to serve as significant mediator function for emotional and behavioral sequelae among sexually abused children The potential importance of more widespread assessment of dissociation among childhood populations and the implications of these findings are discussed
