*Design Zen* Matheus Martins Soares, 2023-06-23. Zen Design goes beyond traditional architecture trends and conventions. It is a philosophy that invites us to seek the essence and soul of spaces, transforming them into true sanctuaries that nourish the mind, body, and soul. It is a journey that takes us beyond the mere functionality of environments and to explore the interconnection between human beings and the world around us. By uniting the principles of Feng Shui, an ancient Chinese practice of energy harmonization, with design concepts inspired by minimalism, simplicity, and connection with nature, Design Zen invites us to create spaces that go beyond the aesthetic, awakening a deep sensation of peace and balance. We will find answers to the desires of the soul, which seeks serenity in the midst of chaos, beauty in the midst of simplicity, and purpose in every detail. You will learn the secrets of harmony between natural elements, the influence of colors and shapes, and the importance of each conscious choice we make when designing an environment.
