was received initiated negotiated embraced or subverted in local contexts and the dialectic between practice and belief which helped to make both so contentious The contributors historians historical theologians and literary scholars through their commitment to an interdisciplinary approach to the subject provide fruitful and revealing insights into this intersection of private and public worship This collection is a sister volume to Martin and Ryrie eds *Private and Domestic Devotion in Early Modern Britain* Together these two volumes focus and drive forward scholarship on the lived experience of early modern religion as it was practised in the sixteenth and seventeenth centuries
