Ferrari 360 Manual Transmission:

Standard Catalog of Ferrari 1947-2003 Mike Covello, Mike Covello, 2003-06-01 Ferrari is simply the world's best known and most desirable pure bred sports car. Everyone knows Ferrari as the ultimate exotic yet they may not know the individual models and details behind them. This is the first book of its kind to showcase every Ferrari road car since 1947 complete with technical specs, options and production numbers all in full color. This reference sorts out the various engine families from the original 4 cylinders through the quintessential V 12s plus model naming and numbering special models and unique facts. Standard Catalog of Ferrari 1947-2003 includes an exclusive 6 condition price guide from the editors of Old Cars Price Guide.

Classic Ferrari Jed Paine, 2021-04-16 Ferraris are best known for their sleek, stunning and curvaceous design, eye watering price tag and standard rosso corsa race red paintwork. From the very first Ferrari the 1947 Tipo 125 S racing sports car through to the more recent 2013 LaFerrari mild hybrid limited edition road car, Ferrari have continued to astound enthusiasts and critics alike with their evolutionary performance road vehicles and unrivalled Formula 1 racing pedigree. Yet motoring history might have been so different. Enzo Ferrari was a reluctant manufacturer. He initially built and sold production vehicles purely to fund his Scuderia Ferrari racing team. For every success on the track though, came a wave of innovation to be applied to their production cars. The F1 gearbox was one of the most important technological transfers from racing car to grand tourer and was quickly followed by traction control. The next generation of Ferraris is set to be turbocharged as strict consumption and emission regulations will affect the future of engineering and there are even electric cars in Ferrari's sights too. The agenda includes more special editions, tailor made varieties and one off models although their core business will still lie in the GT road car market. It is a boyhood dream of many youngsters and grown men to own or at least drive a Ferrari. Unfortunately the majority do not go on to achieve this ambition but this book might go some way to filling the void and keeping the dream alive. Standard Catalog of Imported Cars 1946-2002 Mike Covello, 2001-10-01 This is the only book that completely lists accurate technical data for all cars imported into the U.S. market from 1946-2000. With many imports approaching the antique status, this book will be a big seller across all generations of car enthusiasts. From the grandiose European carriages of the late Forties to the hot little Asian imports of the Nineties, every car to grace American roadways from across the Atlantic and Pacific is carefully referenced in this book. Foreign car devotees will appreciate the attention given to capturing precise data on Appearance and Equipment, Vehicle I.D. Numbers, Specification Charts, Engine Data, Chassis, Technical Data, Options and Historical Information. Collectors, restorers and car buffs will love this key book from noted automotive authors James Flammang and Mike Covello. **Popular Science**, 2002-04 Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better and science and technology are the driving forces that will help make it better.
