J. Neil Burry

Feral Future The Untold Story Of Australias Exotic Invaders:

Feral Future Tim Low, 2002-12 A decade ago Tim Low journeyed to the remote northernmost tip of Australia Instead of the pristine rain forests he expected he found jungles infested with Latin American carpet grass and feral cattle That incident helped inspire **Feral Future** a passionate account of the history and implications of invasive species in that island nation with consequences for ecological communities around the globe Australia is far from alone in facing horrific ecological and economic damage from invading plants and animals and in Low s capable hands Australia s experiences serve as a wake up call for all of us He covers how invasive species like cane toads and pond apple got to Australia often through misguided but intentional introductions and what we can do to stop them He also covers the many pests that Australia has exported to the world including the paperbark tree *Melaleuca* that infests hundreds of thousands of acres in south Florida **Feral Future**

Tim Low, 2018 A decade ago Tim Low journeyed to the remote northernmost tip of Australia Instead of the pristine rain forests he expected he found jungles infested with Latin American carpet grass and feral cattle That incident helped inspire **Feral Future** a passionate account of the history and implications of invasive species in that island nation with consequences for ecological communities around the globe Australia is far from alone in facing horrific ecological and economic damage from invading plants and animals and in Low s capable hands Australia s experiences serve as a wake up call for all of us He covers how invasive species like cane toads and pond apple got to Australia often through misguided but intentional introductions and what we can do to stop them He also covers the many pests that Australia has exported to the world including the paperbark tree *Melaleuca* that infests hundreds of thousands of acres in south Florida **Australia, New**

Zealand, and the Pacific Donald S. Garden, 2005-08-19 A fascinating study of the environmental history of Australia New Zealand and the islands of the Pacific from the time of the dinosaurs to the present day Of interest to students and academics alike this book provides a much needed synthesis of the recent literature on the environmental history of Australia and Oceania Part of ABC CLIO s Nature and Human Societies series this book maps out the key trends in the region s environmental history charting the creation of the Australian continent from the ancient land mass of Gondwanaland to the arrival of humans Especially fascinating are the chapters highlighting how successive waves of human migration created environmental havoc throughout the region leading to the collapse of the Easter Island civilization and the spread of nonindigenous flora and fauna From the controversies over the reasons why creatures such as the marsupial lion and the giant kangaroo became extinct to such contemporary problems as deforestation and global warming this book contains sobering lessons for us all **A Plague of Rats and Rubbervines** Yvonne Baskin, 2013-04-15 The human love of novelty

and desire to make one place look like another coupled with massive increases in global trade and transport are creating a growing economic and ecological threat The same forces that are rapidly McDonaldizing the world s diverse cultures are also driving us toward an era of monotonous weedy and uniformly impoverished landscapes Unique plant and animal communities

are slowly succumbing to the world's rats and rubbervines animals like zebra mussels and feral pigs and plants like kudzu and water hyacinth that once moved into new territory can disrupt human enterprise and well being as well as native habitats and biodiversity From songbird eating snakes in Guam to cheatgrass in the Great Plains invasives are wreaking havoc around the world In *A Plague of Rats and Rubbervines* widely published science writer Yvonne Baskin draws on extensive research to provide an engaging and authoritative overview of the problem of harmful invasive alien species She takes the reader on a worldwide tour of grasslands gardens waterways and forests describing the troubles caused by exotic organisms that run amok in new settings and examining how commerce and travel on an increasingly connected planet are exacerbating this oldest of human created problems She offers examples of potential solutions and profiles dedicated individuals worldwide who are working tirelessly to protect the places and creatures they love While our attention is quick to focus on purposeful attempts to disrupt our lives and economies by releasing harmful biological agents we often ignore equally serious but much more insidious threats those that we inadvertently cause by our own seemingly harmless actions *A Plague of Rats and Rubbervines* takes a compelling look at this underappreciated problem and sets forth positive suggestions for what we as consumers gardeners travelers nurserymen fishermen pet owners business people indeed all of us who by our very local choices drive global commerce can do to help

Biodiversity and the Precautionary Principle Rosie Cooney, Barney Dickson, Fauna Flora International, 2012-05-16 Great uncertainty typically surrounds decisions and management actions in the conservation of biodiversity and natural resource management and yet there are risks of serious and irreversible harm for both biodiversity and the humans that rely on it The precautionary principle arguably underlies all international conservation efforts and promotes acting to avoid serious or irreversible environmental harm despite lack of scientific certainty as to the likelihood magnitude or cause of harm This book is the first to examine the application of the precautionary principle to biodiversity conservation and natural resource management incorporating perspectives from scientists economists lawyers and practitioners from both developing and developed countries It analyses the application and impacts of the principle in many areas including forestry invasive alien species wildlife trade protected areas and fisheries in a range of national and international contexts Particular attention is drawn to issues of equity livelihoods science and politics and the book provides guidelines for applying the precautionary principle to biodiversity conservation and natural resource management

Encyclopedia of Animal Rights and Animal Welfare Marc Bekoff, 2009-11-25 A landmark publishing achievement on the subject the new edition of this acclaimed encyclopedia is expanded to two volumes covering the full range of issues related to animal protection Expanded to two volumes the comprehensively updated new edition *Encyclopedia of Animal Rights and Animal Welfare* Second Edition is an extraordinary publishing event It remains the only reference to cover the entire scope of animal rights and welfare from a global interdisciplinary perspective with an international team of contributors assembled by Marc Bekoff covering animal treatment issues in the United States China

India Kenya Australia and many other nations With a focused emphasis on fairness and justice for animals evident on every page Encyclopedia of Animal Rights and Animal Welfare Second Edition offers clear explanations of hot button topics like puppy mills endangered species in zoos no kill shelters dog fighting factory farming and disease veganism conservation ethics wildlife contraception and more The encyclopedia also explores a range of religious ethical and philosophical views on using animals as well as the latest research on animal cognition and sentience The work helps readers understand the different viewpoints of animal welfare advocates who want to improve conditions for animals and animal rights activists who don't want animals used at all *Law Society Journal* ,2000 The American Naturalist ,2003 **Darwinian Original Sin** J. Neil Burry,2004 This book is about the art and science of attaining and maintaining a healthy body mass index which means controlling our individual weight at steady comfortable healthy levels It combines philosophy science and medicine in making its case using a perhaps rather unusual path toward enlightenment Altogether a unique book **Meat Makes People Powerful** Wilson J. Warren,2018-02-15 From large scale cattle farming to water pollution meat more than any other food has had an enormous impact on our environment Historically Americans have been among the most avid meat eaters in the world but long before that meat was not even considered a key ingredient in most civilizations diets Labor historian Wilson Warren who has studied the meat industry for more than a decade provides this global history of meat to help us understand how it entered the daily diet and at what costs and benefits to society Spanning from the nineteenth century to current and future trends Warren walks us through the economic theory of food the discovery of protein the Japanese eugenics debate around meat and the environmental impact of livestock among other topics Through his comprehensive multifaceted research he provides readers with the political economic social and cultural factors behind meat consumption over the last two centuries With a special focus on East Asia Meat Makes People Powerful reveals how national governments regulated and oversaw meat production helping transform virtually vegetarian cultures into major meat consumers at record speed As more and more Americans pay attention to the sources of the meat they consume Warren's compelling study will help them not only better understand the industry but also make more informed personal choices Providing an international perspective that will appeal to scholars and nutritionists alike this timely examination will forever change the way you see the food on your plate *Australian Aboriginal Studies* ,2003 **Proceedings of the Royal Society of Victoria** Royal Society of Victoria (Melbourne, Vic.),2010 List of members in each volume except v 6 new ser v 27 Proceedings of CAVEPS 2005 Liz Reed,2006 **The Victorian Naturalist** ,2005 **The Journal** ,2004 **Hawai'i's Invasive Species** George Staples,Robert H. Cowie,2001 Describes the causes and consequences of the introduction of invasive alien species of plants and animals to Hawaii Australian Journal of Botany ,2006 Weeds Across Borders ,2002 Plant invasions refer to those instances in which plants arrive in a new area and spread proliferate and exert environmental and usually economic damage in the new range The purpose of the Tucson conference was to explore cooperative approaches for controlling invasive plant

species This international conference was attended by representatives of United States Canada and Mexico The conference program was divided into these three subject areas international perspective invasive plant problems and management techniques and policy discussions and recommendations **Ecology** Peter Muecke Attiwill, Barbara A. Wilson, 2006
Shortlisted for The BPA Print Group Best Designed Tertiary and Further Education Book in the 55th Annual APA Book Design Awards 2007 Ecology An Australian Perspective is uniquely and wholly Australian It is the only textbook of ecology that deals comprehensively with the ecological principles and practice of plant and animal ecology in an Australian context New to this edition Four new chapters on population ecology New chapter on community ecology More on the fundamental theory of ecology New structure to better fit the way ecology is taught Congratulations to author Peter Attiwill who was made a member of the Order of Australia in the recent Queen s birthday honours for service to science particularly in the field of forest ecology as an academic researcher and author *New Zealand Journal of Forestry Science* ,2003
