Dongshans Five Ranks Keys To Enlightenment:

Dongshan's Five Ranks Ross Bolleter, 2014-05-20 The first in depth English commentary on the Five Ranks a core text of the Zen tradition that teaches what can't be taught which contains new translations of all of the key texts of the Five Ranks cycle We imagine ourselves and the universe to be distinct but within us glimmers the suspicion that we are in fact intimately connected and inseparable from all that there is The dawning and expansion of such awareness is called enlightenment In his masterwork a suite of dialectical works known collectively as the Five Ranks Dongshan a Zen master of Old China approaches enlightenment from five angles using paradox and poetry to lay out a multifaceted path whereby we might discover enlightenment within this very moment Ross Bolleter Roshi assembles and provides commentary on all of the core texts of the Five Ranks including the precursors that inspired it and works inspired by it Approaching the Five Ranks from a rich and sophisticated koan perspective Bolleter Roshi augments his explanations of the works with liberal doses of humor and storytelling bringing this esteemed classic to life Each part of the Five Ranks focuses differently on the relationship between the timeless realm of our essential natures and the contingent realm of life and death They encourage us to transcend naive individualism and to bring our best qualities of compassion and wisdom intimately into our daily lives In this regard Dongshan's Five Ranks lays out the path that every student of the Way must traverse on the journey to becoming a teacher

The Circle of the Way Barbara O'Brien, 2019-11-12 A comprehensive accessible guide to the fascinating history of Zen Buddhism including important figures schools foundational texts practices and politics Zen Buddhism has a storied history Bodhidharma sitting in meditation in a cave for nine years a would be disciple cutting off his own arm to get the master's attention the proliferating schools and intense Dharma combat of the Tang and Song Dynasties Zen nuns and laypeople holding their own against patriarchal lineages the appearance of new masters in the Zen schools of Korea Japan Vietnam and later the Western world In *The Circle of the Way* Zen practitioner and popular religion writer Barbara O'Brien brings clarity to this huge swath of history by

charting a middle way between Zen's traditional lore and the findings of modern historical scholarship. In a clear and often funny style, O'Brien parses fact from fiction while always attending to the greatest interest of contemporary practitioners: the development of Zen doctrine and practice as a living tradition across cultures and centuries.

Storehouse of Treasures Nelson Foster, 2024-09-10

Storehouse of Treasures unearths wise and beautiful elements of Chan and Zen still little known in the West, revealing unexpected aspects of the tradition and new implications for practice. Since the dawn of Chan and Zen in medieval China and Japan, members of these schools have enlivened their teaching by creatively adopting and adapting terms, images, principles, poetry, and lore native to their societies. Unfortunately, so much of that cultural wealth has been lost in translation that Western practitioners have barely begun to discover and appreciate this extraordinarily rich legacy. In Storehouse of Treasures, second-generation American Zen teacher Nelson Foster makes a series of adventuresome forays into the trove of material laid up by the Dharma ancestors, bringing to light Masters' delight in playing with words, stories, and inherited Buddhist concepts, bending them to express the Dharma in inspired ways. The powerful influence that Taoist and Confucian thought exerted in the formation of Chan and Zen, the emphasis the two schools have laid on excellence of character as well as on profound awakening, the experiential meaning and enduring importance to the tradition of ideals little associated with it today like integrity, shame, and contentment—how knowing the tune of a fellow student, a mentor, or a teacher of old lies at the heart of transmitting the Dharma—lifting to attention a diverse set of ancient yet still luminous Dharma gems—Foster urges their relevance and value to us as students of the Buddha Way and as citizens of a world increasingly fractious and imperiled.

Just This Is It Taigen Dan Leighton, 2015-05-05

The joy of suchness, the absolute and true nature inherent in all appearance, shines through the teachings attributed to Dongshan Liangjie (807–869), the legendary founder of the Caodong lineage of Chan Buddhism, the predecessor of Sŭi Zen. Taigen Dan Leighton looks at the teachings attributed to Dongshan in his Recorded Sayings and in the numerous koans in which he is featured as a character to reveal the subtlety and depth of the teaching on the nature of reality that Dongshan expresses. Included are an analysis of the well-known teaching poem *Jewel Mirror Samadhi* and of the understanding of particular and universal expressed in the teaching of the Five Degrees. The teachings embedded in the stories about Dongshan provide a rich legacy that has been sustained in practice traditions, says Taigen. Dongshan's subtle teachings about engagement with suchness remain vital today for Zen people and are available for all those who wish to find meaning amid the challenges to modern life.

Metatheory for the Twenty-First Century Roy Bhaskar, Sean Esbjörn-Hargens, Nicholas Hedlund, Mervyn Hartwig, 2015-12-14

Metatheory for the 21st Century is one of the many exciting results of over four years of in-depth engagement between two communities of scholar-practitioners: critical realism and integral theory. Building on its origins at a symposium in Luxembourg in 2010, this book examines the points of connection and divergence between critical realism and integral theory, arguably two of the most comprehensive and sophisticated contemporary metatheories. The Luxembourg symposium and the

four more that followed explored the possibilities for their cross pollination culminating in five positions on their potential for integration and began the process of fashioning a whole new evolutionary trajectory for both integral theory and critical realism The contributors to this book bring together critical realism and integral theory in order to explore the potential of this collaboration for the advancement of both Highlighting the ways in which these metatheories can transform scholarship and address the most pressing global issues of the 21st century this book will be of interest to students scholars and practitioners in the areas of metatheory philosophy social theory critical realism integral theory and current affairs more generally
