**Planning Ideas That Matter** Bishwapriya Sanyal, Lawrence J. Vale, Christina D. Rosan, 2012-07-13 Leading theorists and practitioners trace the evolution of key ideas in urban and regional planning over the last hundred years     A Dictionary of Green Ideas John Button, 2019-06-21 First published in 1988 A Dictionary of Green Ideas collects together the concepts which go to make up a green view of the world Ecology and the environment conservation and appropriate technology politics and philosophy peace and health spirituality and world development all these areas and more are reflected in nearly 1500 entries The entries range from the very short to full length essays reflecting the diversity of the subject matter All give a clear definition of the meaning of the term and an indication of its etymology and earliest use But the Dictionary of Green Ideas is much more than simply a list of definitions The concepts discussed are elaborated upon interpreted set in context exemplified by quotations from a wide range of sources and related to other entries by means of an extensive network of cross references The result is a fascinating and immensely readable book which successfully fulfils a double role as an accessible introduction to green thought and as a source of reference offering new insights to green thinkers of long standing     *Practical Health* Leander Edmund Whipple, 1907     Kristo Das Pal Nagendra Nath Ghosh, 1887     Self-directed Behavior David L.
