

Marking a Waypoint

A waypoint is any point on the Map Page that you want to remember. You can mark (create) a waypoint at your current location, enter the waypoint, and save it to use as a route (see "Creating Routes").

To mark a waypoint

1. From the Map Page, press **MARK**. The Mark Waypoint page appears.
2. To name the waypoint, use the **ROCKER** key to highlight the "Name" field and press **ENTER**.
3. Enter a name for the waypoint on the keyboard using the **ROCKER** key and the **ENTER** key (see "Entering Data" on the previous page).
4. Highlight "OK" and press **ENTER** to save the waypoint.

Finding Places

Using the Find Page, you can search for waypoints, points of interest, or cities. If you load optional MapSource® Points of Interest data on your GPS 60, you can search for businesses, lodging, restaurants, and more.

To find a waypoint

1. Press the **FIND** key. The Find Page appears, highlighting "Waypoints" and press **ENTER**.
2. Use the **ROCKER** key to scroll down the list and highlight the waypoint you want to find. Press **ENTER** to select the waypoint. The Waypoint Information Page appears.
3. Use the **ROCKER** key to highlight "Map" and press **ENTER** if you want to view the waypoint on the map. Select "Go To" to begin navigation (see "Creating Routes").

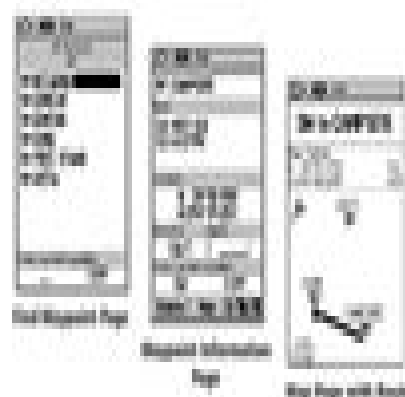

Creating and Viewing Tracks

Tracks are like hole punches—they show you exactly where you have traveled. Tracks appear as a small dotted line on the Map Page. Your GPS 60 automatically creates tracks as you move and displays the dotted line, called a track log.

To view tracks

1. Press the **MARK** key until you see the Map Page.
2. Walk away from your present location for at least three minutes.
3. Press **W** to begin to see the Map Page until you can see your track log.

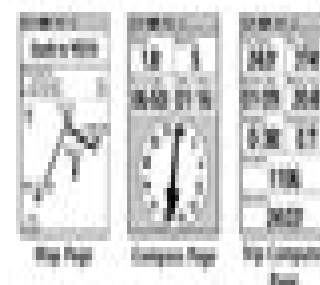

The Find Waypoint Page lists all of the waypoints you have marked. Press **ENTER** to select a waypoint. Then select "Map" to view the waypoint on the Map Page or select "Go To" to create a route to the waypoint. The track appears on the Map Page as a dotted line from your current location to the waypoint.

Creating Routes

A route gives you straight-line directions from one point to another, or from one point to several others. You can create a simple route by finding a waypoint and selecting "Go To" (see "Finding Places"). You can create more complex routes involving many points with the Route Page.

To create a route

1. Press **MARK** until you see the Map Menu Page. Use the **ROCKER** key to highlight "Routes" and press **ENTER**. Then press **ENTER** again to create a new route.
2. Highlight "Select first Point" and press **ENTER** to add a point to your route. The Find Page appears.
3. Find a waypoint or other point to add to your route (see "Finding Places"). When you have found a point, select "Go" from the Point Information Page to add the point to your route.
4. Repeat steps 2 and 3 to add more points to your route. When you are finished adding points, highlight "Waypoint" and press **ENTER** to begin using the route.

For the Map, Compare, and Map Comparison Pages to compare a route, the route information must first be on the Map Page. To copy waypoints, press **ENTER** on the Map Page and select "Copy Waypoints".

through the Faculty of Tropical Forestry formerly known as School of InternationalTropical Forestry have conducted forestry camp in the Forestry education curriculum since it was introduced in 2000 Every year we bring the students sometimes two

troops in a year to train them as a forester At the same time the lecturers and staff prepare the teaching materials and

equipment needed for the camp and of course we teach them relatively similar content every year by the respective lecturer

or expert with staff assistance Indeed writing this book is not an easy job when we have so many ideas but quite challenging

to transform in a book due to time constraints and other commitments by the lecturers for many years However we got the

motivation that we want the best for our students and we have experience in coordinating forest camps for many years

Therefore we wrote this book to provide a guide and practical to the students about forestry camp for learning forest

mentoring both theoretical and practical as a compliment in achieving forester values in the related forestry discipline hard

skills as well as soft skills More than that this book is also intended to reach a broad audience on basic knowledge about how

to survive in the forest introduction on some wild edible plant and non forest resources birds wildlife forest recreation as well

as camping hazard management for those people who are intended for organizing camping in the forest We hope that this

publication provides invaluable insights that may help not only forestry students but also the people who love and enjoy the
