

Evidence for Evolution

How are DNA and comparative anatomy used to show relatedness?

Why?

“You look just like your mother!” “He has his father’s eyes.” These comments that refer to the similarities between parents and their children are heard often in conversation. These similar traits are due to the genetic material that children inherit from their parents. As humans we are sometimes fortunate enough to have three or four generations sitting in a room at one time, and we can see the similarities from generation to generation. But how much do you look like your ancestors from 100 generations ago, 1000 generations ago or more? How much of your DNA did you inherit from those ancestors? What traits do you share with them?

Model 1 – Family Characteristics

1. Model 1 is a family tree. Circle the original parents of the family.
2. How would you describe the organisms in the second row of Model 1 that are connected to the parents by a line?
3. Identify the three members of the family that “married in” by placing a star next to their figures in Model 1.
4. How are the organisms in the third line related to the organisms in the first line?

The Evidence for Evolution Alan R. Rogers, 2024-05-31 According to polling data most Americans doubt that evolution is a real phenomenon And it s no wonder that so many are skeptical many of today s biology courses and textbooks dwell on the mechanisms of evolution natural selection genetic drift and gene flow but say little about the evidence that evolution happens at all How do we know that species change Has there really been enough time for evolution to operate With The Evidence for Evolution Alan R Rogers provides an elegant straightforward text that details the evidence for evolution Rogers covers different levels of evolution from within species changes which are much less challenging to see and believe to much larger ones say from fish to amphibian or from land mammal to whale For each case he supplies numerous lines of evidence to illustrate the changes including fossils DNA and radioactive isotopes His comprehensive treatment stresses recent advances in knowledge but also recounts the give and take between skeptical scientists who first asked how can we be sure and then marshaled scientific evidence to attain certainty The Evidence for Evolution is a valuable addition to the literature on evolution and will be essential to introductory courses in the life sciences *Evolution* Michael Carter, 2019 This 80 minute lesson plan covers the evidence for evolution and fossils *Evidence of Evolution* Sue Middleton, Mary Ellen Hannibal, 2009 **Evidence for Evolution** Noel Babb, 1994-04 **The Theory of Evolution** Michael Carter, 2019 This 70 minute lesson plan covers fossils the evidence for evolution and how biogeography relates to evolutionary change *The Greatest Show on Earth* Richard Dawkins, 2009-09-22 Richard Dawkins transformed our view of God in his blockbuster The God Delusion which sold millions of copies in English alone He revolutionized the way we see natural selection in the seminal bestseller The Selfish Gene Now he launches a fierce counterattack against proponents of Intelligent Design in his New York Times bestseller The Greatest Show on Earth Intelligent Design is being taught in our schools educators are being asked to teach the controversy behind evolutionary theory There is no controversy Dawkins sifts through rich layers of scientific evidence from living examples of natural selection to clues in the fossil record from natural clocks that mark the vast epochs wherein evolution ran its course to the intricacies of developing embryos from plate tectonics to molecular genetics to make the airtight case that we find ourselves perched on one tiny twig in the midst of a blossoming and flourishing tree of life and it is no accident but the direct consequence of evolution by non random selection His unjaded passion for the natural world turns what might have been a negative argument exposing the absurdities of the creationist position into a positive offering to the reader nothing less than a master s vision of life in all its splendor *Is Evolution Proved?* Douglas Dewar, Henry Stanley Shelton, 1947 **The Evidence of Evolution** Hugo de Vries, 1904 **Questions and Answers on Creation/evolution** John N.
