Evolutionary Psychology Steven J. Scher, Frederick Rauscher, 2003 Evolutionary psychology has been dominated by one particular method for studying the mind and behavior This is the first book to both question that monopoly and suggest a broad range of particular alternatives Psychologists philosophers biologists anthropologists and others offer different methods for combining psychology and evolution They recommend specific changes to evolutionary psychology using a wide variety of theoretical assumptions In addition some essays analyze the underpinnings of the dominant method relate it to the context of evolutionary and psychological theory and to general philosophy of science and discuss how to test approaches to evolutionary psychology The aim of this collection is not to reject evolutionary psychology but to open up new vistas which students and researchers can use to ensure that evolutionary psychology continues to thrive Evolutionary Psychology Steven J. Scher, Frederick Rauscher, 2012-12-06 Evolutionary psychology has been dominated by one particular method for studying the mind and behavior This is the first book to both question that monopoly and suggest a broad range of particular alternatives Psychologists philosophers biologists anthropologists and others offer different methods for combining psychology and evolution They recommend specific changes to evolutionary psychology using a wide variety of theoretical assumptions In addition some essays analyze the underpinnings of the dominant method relate it to the context of evolutionary and psychological theory and to general philosophy of science and discuss how to test approaches to evolutionary psychology The aim of this collection is not to reject evolutionary psychology but to open up new vistas which students and researchers can use to ensure that evolutionary psychology continues to thrive Epistemological Dimensions of Evolutionary Psychology Thiemo Breyer, 2014-11-04 As psychology and philosophy arose as answers to the eternal question of how the mind works evolutionary psychology has gained ground over recent years as a link between cognitive behavioral and natural science theories of the mind This provocative field has also gathered a wide range of criticisms from attributing too much autonomy to the brain to basing itself on faulty assumptions about our prehistoric past Epistemological Dimensions of Evolutionary Psychology reframes its discipline for the contemporary era correcting common misconceptions and mediating between different schools of thought By focusing on the nature and limits of knowledge and reasoning the essence of epistemology contributors offer fresh insights at the intersection of human cognitive abilities as adaptations and our self perception of knowledge including evolutionary perspectives on altruism depression or the phasing out of human sacrifice This diversity strengthens and vindicates the field as evinced by thought provoking dispatches such as *Toward a cognitive philosophy of science* *Evolutionary media psychology and its epistemological foundation* *The meme meme revisited* *Depression as an adaptation* *Like me a homophily based account of human culture* *Preparedness to learn about the world* evidence from infant research An engaging and often controversial testament to the combined power of evolution and logic Epistemological Dimensions of Evolutionary Psychology will intrigue philosophers as well as psychologists in a variety of

subdisciplines **The SAGE Handbook of Evolutionary Psychology** Todd K. Shackelford, 2021-08-04 Evolutionary psychology is an important and rapidly expanding area in the life social and behavioral sciences and this Handbook represents the most comprehensive and up to date reference text in the field today Over three volumes the Handbook provides a rich overview of the most important theoretical and empirical work in the field Chapters cover a broad range of topics including theoretical foundations the integration of evolutionary psychology with other life social and behavioral sciences as well as with the arts and the humanities and the increasing power of evolutionary psychology to inform applied fields including medicine psychiatry law and education Each of the volumes has been carefully curated to have a strong thematic focus covering The foundations of evolutionary psychology The integration of evolutionary psychology with other disciplines and The applications of evolutionary psychology The SAGE Handbook of Evolutionary Psychology is an essential resource for researchers graduate students and advanced undergraduate students in all areas of psychology and in related disciplines across the life social and behavioral sciences *Evolutionary Theory: Fringe or Central to Psychological Science* Danielle Sulikowski, 2016-08-08 The computational theory of mind which views the brain as an information processor that operates on cognitive representations is central to modern cognitive psychology and is the dominant perspective from which brain function is conceptualized and studied Evolutionary Psychology EP is the application of evolutionary theory to understanding human behaviour and cognition Unlike other core Psychology topic areas such as Personality Learning or Developmental Psychology however EP is not defined by the subset of psychological phenomena it seeks to describe and understand It is instead defined by a specific meta theoretical perspective from which it seeks to potentially explain all psychological phenomena The central question posed by this volume is whether this over arching nature provides an opportunity for evolutionary approaches to offer an alternative meta theoretical perspective to the information processing representational view of brain function and behavior **Illuminating Human Evolution: 150 Years after Darwin** Jaume Bertranpetit, Juli Peretó, 2022-10-06 This book presents a series of perspectives showing the current knowledge about human evolution On the occasion of the 150th anniversary of Darwin's book *The Descent of Man and Selection in Relation to Sex* in which he explicitly addresses the natural origin of the human species this collective work reviews current and diverse aspects of human evolution from psychology linguistics genomics paleontology artistic expression or sexual selection It also offers a historical social and ideological context of what is often considered to be Darwin's second great work after *The Origin of Species* Although current research is concentrated largely on fossils and genomes this book also deals with the main points Darwin centered his attention on comparative morphology and psychology and sexual selection It also covers other new aspects such as the origin of art social structure and social learning With contributions from leading experts in their respective fields the book guides readers to the study of the social context of Darwin and his time and the state of the art of studies on human evolution and sexual selection considering all aspects that Darwin examined including those that emerged

later and now are important disciplines in our understanding of our own evolution The English translation of parts of this book from its Spanish original manuscript was done with the help of artificial intelligence machine translation by the service DeepL.com A subsequent human revision was done primarily in terms of content

Naturalism, Evolution, and Intentionality Jillian Scott McIntosh, 2001 A collection of essays concerning the mind that explores the prospects for and limits of appealing to facts about evolutionary history and current environment organism interaction in explaining the nature and workings of the mental Includes papers in ethology psychology neuroscience Each paper contributes to the discussion of what discoveries in this field can tell us about particular issues in the philosophy of mind Some of the papers in this issue have had a high profile Mel Goodale was recently on the CBC talking about how each of us has two types of vision it was a fascinating piece that is not actually written by a philosopher

Evolutionary Psychology Matthew Rossano, 2003 Written in a lively and engaging manner this new work places evolutionary psychology within the broad sweep of our primate heritage and the full scope of our evolutionary story Beginning with the basics of evolution the book first unpacks the far ranging saga of human evolution then moves on to examine motor behavior and emotions sexual behavior and mate selection and higher cognition

Evolutionary Theory: Fringe Or Central to Psychological Science, 2016 The computational theory of mind which views the brain as an information processor that operates on cognitive representations is central to modern cognitive psychology and is the dominant perspective from which brain function is conceptualized and studied Evolutionary Psychology EP is the application of evolutionary theory to understanding human behaviour and cognition Unlike other core Psychology topic areas such as Personality Learning or Developmental Psychology however EP is not defined by the subset of psychological phenomena it seeks to describe and understand It is instead defined by a specific meta theoretical perspective from which it seeks to potentially explain all psychological phenomena The central question posed by this volume is whether this over arching nature provides an opportunity for evolutionary approaches to offer an alternative meta theoretical perspective to the information processing representational view of brain function and behavior

Human Characteristics Henrik Høgh-Olesen, Jan Tønnesvang, Preben Bertelsen, 2009 Every once in a while we have to reconsider the perennial questions concerning human nature What are the special human behaviours social practices and psychological structures that makes us particularly human The field of evolution psychology and cognitive science is the most expanding inter disciplinary area for the time

being uniting different sciences under the same evolutionary paradigm and keeping them occupied by the same eternal questions stated above Relevant data and theoretical considerations are piling up but an overview is needed To facilitate this a large inter disciplinary conference entitled Human Mind Human Kind was held at University of Aarhus Denmark More than 100 experts presented their latest research and after careful selection 20 of these contributions have found their way to this volume The studies fall into three well defined sections Evolution and Cognition Comparative and Developmental Perspectives Human Sociality Morality Religiosity Human Sexuality and Mating Strategies Specifying the differences between our own species and the rest of the animal world always provokes debate But these demarcations simply have to be drawn once and again They focus attention and stimulate research exactly because they provoke and challenge other researchers to take up the glove and prove us wrong
