Evolving Approaches To Managing Marine Recreational Fisheries Author Donald R Leal Feb 2009:

Evolving Approaches to Managing Marine Recreational Fisheries Donald R. Leal, Vishwanie Maharaj, 1955-01-01 Each year thirteen million anglers enjoy the sport of saltwater angling in the United States generating an estimated 30 billion in sales and supporting nearly 350 000 jobs Recreational saltwater fishing however can significantly impact species of concern species overfished or experiencing overfishing Traditional angling controls bag and size limits and restricted seasons have fallen short in controlling fishing impacts and reducing conflicts among fishing and non fishing interests *Evolving Approaches to Managing Marine Recreational Fisheries* offers ways of overcoming such problems while providing anglers and the recreational service industry greater regulatory flexibility to enjoy the fruits of sportfishing It features fourteen internationally recognized fishery experts presenting the pros and cons of using individual fishing quotas IFQs game tags and angler management organizations AMOs in managing marine recreational fisheries presenting both theoretical and practical solutions to help move recreational fisheries management to a new and improved level

Evolving Property Rights In Marine Fisheries Donald R. Leal, 2007-12-30 **Evolving Property Rights in Marine Fisheries** Donald Leal, 2005 This book examines the development of property rights in marine fisheries and asks whether the obstacles to their continued development cannot be more easily overcome The contributed chapters generally focus on the consequences of a lack of property rights of commercial and small time fishers globally National governments have recognized that the absence of such rights coupled with the technological advances in commercial fishing have resulted in widespread economic and environmental problems e g overfishing bycatching highgrading increased physical dangers and lower profits The most significant solution to these problems and the predominate concern of this book is the institution of Individual Transferable Quotas ITQs also known as Individual Fishing Quotas IFQs These are national and global policies public and private sector managed allocations of the amount of various species of fish at certain quantities can be harvested at particular times by fishers

Data and Management Strategies for Recreational Fisheries with Annual Catch Limits National Academies of Sciences Engineering and Medicine, Division on Earth and Life Studies, Ocean Studies Board, Committee on Data and Management Strategies for Recreational Fisheries with Annual Catch Limits, 2022-04-21 Marine recreational fishing is a popular activity enjoyed by more than 9 million Americans annually and is a driver of the American ocean or blue economy To ensure that fish populations are not overexploited the NOAA Fisheries Marine Recreational Information Program MRIP monitors recreational catch through a variety of in person telephone mail in and other surveys NOAA Fisheries management of recreational catch also must take into account annual catch limits ACLs established to prevent overfishing for all managed species in federal waters While MRIP has worked to improve recreational catch surveys over the past decade the surveys were never designed to meet the demands of in season management of ACLs In some cases estimates of harvest have triggered accountability measures such as early season closures and reductions in future recreational ACLs which have been

a source of contention with the recreational fishing community This report presents approaches for optimizing MRIP data and complementary data for in season management and considers alternatives for managing recreational fisheries with ACLs to better serve both social and economic management objectives
