Purpose(you write)

Materials

Lily

Dissection kit

White unlined paper

Pencil

Colored pencils

Method

1. Obtain a lily.
2. Examine the flower. Create a titled data table containing the following: number of petals, color of petals, number of stamens, number of pistils, monocot or dicot, number of ovary chambers. Include this data table in the results section of your lab write-up.
3. Remove one petal so that you can see the inner parts of the flower. Sketch the flower on a white unlined half sheet of paper, following the Biology Drawing rules. Place this under Sketches in the results section of your lab write up. Include a title below your sketch, and label the following if present: sepals, petals, pistil, stamen. Color your sketch. **If your anthers are missing, this is because pollen stains and the anthers have been removed by the florist.**
4. Remove the petals from the flower.
5. Remove the pistil from the base of the flower.
6. Sketch the pistil. Use a half sheet of unlined white paper, following the Biology Drawing rules. Place this under Sketches in the results section of your lab write up. Include a title below your sketch, and label the following if present: stigma, style, ovary (widest part of the vase-shaped pistil). Color your sketch.
7. Using a scalpel or single-edged razor blade, using the cutting board on the teaching island, cut the ovary in half at its widest part as shown in Figure 1 below. **CAUTION: Be very careful when handling sharp instruments! Always cut in a direction AWAY from your hands and body!**
8. Observe the side of the ovary. Record in the data table the number of ovary chambers. The white, oval objects inside the chambers are the ova (eggs).

Figure 1

9. Sketch the pollen that is on the television (attached to a microscope camera). Include magnification and title below your sketch, following the Biology Drawing rules. Place this under Sketches in the results section of your lab write up. Color your sketch.
10. Dispose of the used flower parts in the trash.
11. Answer the analysis question in the Questions section of your lab write up. Follow the Lab Guidelines posted on the web page.
