Women Aren't Supposed to Fly Harriet Hall, 2008-03-24 When Harriet Hall graduated from medical school in 1970 and entered the Air Force she was in a distinct minority As the second woman ever to do an Air Force internship she had to fight for acceptance Even a patient's 3 year old daughter proclaimed Oh Daddy That's not a doctor that's a lady She was refused a residency paid less than her male counterparts couldn't live on base and couldn't claim her husband as a dependent because he wasn't a wife After six years as a general medical officer in Franco's Spain she became a family practice specialist and a flight surgeon doing everything from delivering babies to flying a B 52 She earned her pilot's license despite being told Women aren't supposed to fly and eventually retired from the Air Force as a full colonel She is witness to an era when society was beginning to accept women in traditionally male jobs but didn't entirely like the idea yet A

somewhat warped sense of humor kept her afloat and it spices the stories she tells about her own experiences and the patients and colleagues she encountered
