History and Theory of Compromise Jan-Hendryk de Boer, Manon Westphal, Julia Mariko Jacoby, Karsten Mause, Stefan Zeppenfeld, 2025-11-17 Interest in compromise has recently grown both in public and scholarly debates However there is a lack of interdisciplinary dialogue on the topic This volume fills this gap by bringing together contributions from various relevant disciplines They show that compromise has been a central technique to regulate social and political conflicts in different contexts In a compromise the conflicting parties create an agreement by making mutual concessions but do not give up their original claims Therein lies the capacity of compromise to prevent or end escalated conflicts even in situations in which disagreements cannot be transformed into a consensus In addition to theoretical investigations of the concept the volume includes case studies on Europe in the Middle Ages in the 19th and 20th centuries and on pre modern and contemporary Japan The overarching question is about the preconditions of compromises The authors examine the role of compromise in diplomacy politics trade economics and everyday life Together they generate a comprehensive picture of the

capacities and limitations of compromise in the past and today **AI Agents Made Easy** Barron Wilson, 2025-06-06 AI Agents Made Easy Build Your Digital Workforce with No Code Tools Simplify automation Build smarter No coding required This practical easy to follow guide helps you unlock the power of AI agents intelligent digital workers that can think act and learn on their own Best of all you don't need to be a programmer to build them AI Agents Made Easy shows you how to create your own smart automation tools using popular no code platforms like n8n Coinbase AgentKit Zapier and Make Whether you're running a business managing content trading crypto or planning trips this book walks you step by step through building agents that handle real world tasks automatically You'll learn how to build agents that Trade crypto on Coinbase monitor prices and manage risk Write and optimize content for TikTok YouTube and blogs Create branded videos and auto post them to social media Plan travel find deals and book multi stop trips Summarize research from the web PDFs and social media Write polish and schedule blog posts for platforms like WordPress and X You'll also discover how to connect these agents into larger systems like a full blown content production pipeline or an automated travel business Along the way you'll explore key tips for keeping your agents running smoothly securely and around the clock And because the world of AI is moving fast you'll get a look at what's coming next the latest tools trends and ethical insights to help you stay ahead
