Burstein, 2013-02-12 A millennial examines how his generation is profoundly impacting politics business media and activism They've been called trophy kids entitled narcissistic the worst employees in history and even the dumbest generation But argues David Burstein the millennial generation's unique blend of civic idealism and savvy pragmatism will enable us to overcome a deeply divided nation facing economic and environmental calamities With eighty million millennials people who are today eighteen to thirty years old coming of age and emerging as leaders this is the largest generation in U.S. history and by 2020 its members will represent one out of every three adults They are more ethnically and racially diverse than their elders and have begun their careers at a time when the recession has set back the job market Yet they remain optimistic about their future and are deeply connected to one another Drawing on extensive interviews with his millennial peers and compelling new research Burstein illustrates how his generation is simultaneously shaping and being shaped by a fast paced and fast changing world Part oral history part social documentary *Fast Future* reveals the impact and story of the millennial generation in its own words *Theoretical Models and Processes of Literacy* Misty Sailors, Donna E. Alvermann, 2018-10-03 The Seventh Edition of this foundational text represents the most comprehensive source available for connecting multiple and diverse theories to literacy research broadly defined and features both cutting edge and classic contributions from top scholars Two decades into the 21st century the Seventh Edition finds itself at a crossroads and differs from its predecessors in three major ways the more encompassing term literacy replaces reading in the title to reflect sweeping changes in how readers and writers communicate in a digital era the focus is on conceptual essays rather than a mix of essays and research reports in earlier volumes and most notably contemporary literacy models and processes enhance and extend earlier theories of reading and writing Providing a tapestry of models and theories that have informed literacy research and instruction over the years this volume's strong historical grounding serves as a springboard from which new perspectives are presented The chapters in this volume have been selected to inspire the interrogation of literacy theory and to foster its further evolution This edition is a landmark volume in which dynamic dialogic and generative relations of power speak directly to the present generation of literacy theorists and researchers without losing the historical contexts that preceded them Some additional archival essays from previous editions are available on the book's eResource New to the Seventh Edition Features chapters on emerging and contemporary theories that connect directly to issues of power and contrasts new models against more established counterparts New chapters reflect sweeping changes in how readers and writers communicate in a digital era Slimmer volume is complemented by some chapters from previous editions available online **Apocalyptic Projections** Annette M. Magid, 2015-06-18 Apocalyptic Projections have been pondered since Biblical times Theories abounded in an attempt to prepare for calamity and plan for the future Worldwide concern regarding a twenty first century apocalypse related to the 2012 Mayan Apocalyptic prediction sparked

renewed interest Even though the concept of apocalypse evokes images of total oblivion threads of possibility and redemption offer a potential fabric of hope The majority of the papers included in Apocalyptic Projections were p
