The multilateral WTO General Agreement on Trade in Services GATS the first set of legally enforceable rules ever negotiated to cover international trade in services is now a reality This Agreement comprises the institutional framework for the many services internationally traded among countries and is intended to insure that each WTO member treat the services and service suppliers of other members no less favourably than its own One of the most important service sectors covered in the Agreement is tourism with its crucial role in the economic growth of many countries This study deals with such services and their role in the economy with specific reference to tourism and the implications of the legal framework of the GATS and its commitments regarding that sector An analysis of the tourism sector both in its regional sector and international dimensions is supported with case studies of two ESCWA member countries Egypt and Jordan which have made significant progress in this area
