Globalization And Resistance Globalization And Resistance:

Globalization and Resistance Jackie Smith, Hank Johnston, 2002 Smith and Johnston bring together essays that assess the implications of globalization of political mobilization and explore the way that social movement actors are able to affect change in global political processes Most of the material focuses on how global forces impact particular organizations or campaigns but two chapters explore the building of transnational networks by environmental and other groups Specific topics include Irish transnational social movements the shaping of protected area systems in less developed countries the anti dam movement in Brazil and the U S Central American peace movement BookNews *The Future in the Balance* Walden F. Bello, 2001 [Globalization and Resistance](#) Hank Johnston, Jackie Smith, 2002-08-15 Globalization and Resistance brings together cutting edge theory and research about how global economics and politics alter the way ordinary people engage in contentious political action The cases range from nineteenth century Irish immigrant networks to protests against World Bank projects in the Amazon to contemporary transnational organizing for the environment to the battle of Seattle The volume illuminates the reciprocal effects between globalization processes and social movements *Globalization and the Politics of Resistance* B. Gills, 2000-04-07 The paradox of globalization is that it both weakens and activates social forces of resistance This book establishes the centrality of the political in our understanding of globalization and explores the new strategies of resistance emerging on local national regional and global scales Its impressively wide ranging set of contributors engage in re thinking what practices now constitute viable political strategies in the world economy focusing on popular responses to neoliberal globalization and the rearticulation of society politics and the state [Situating Global Resistance](#) Lara Montesinos Coleman, Karen Tucker, 2013-09-13 The book examines some of the ways in which contemporary forms of political dissent are situated within processes of global ordering Grounded in analysis of concrete practices of discipline and dissent in specific contexts it explores the ways in which resistance can be shaped by dominant ways of thinking seeing or enacting politics and by the multiform relations of power at play in the making of global order The contributions written from a variety of disciplinary backgrounds address themes such as the processes through which particular sorts of resisting subjects are produced the politics of knowledge in which resisting practices are embedded the ways in which visual technologies are deployed within and towards oppositional practices and the politics of gender race and class within spaces of contestation The volume thus opens up space for critical reflection and inter disciplinary dialogue on what it means to be a resisting subject and on the interplay between the power and counter power in global order This book was published as a special issue of Globalizations *Resistance to Globalization* Harald Barrios, 2003 This volume is an important contribution to the empirical research on what globalization means in different world regions Resistance here has a double meaning It can signify active intentional resistance to tendencies which are rejected on political or moral grounds by presenting alternative discourses and concepts founded in specific cultural and national traditions It can also mean

resilience with regard to globalization pressures in the sense that traditional patterns of development and politics are resistant to change The book shows that the local sub national national and regional patterns of politics and development coexist with globalized structures without yielding very much ground and in ways which may turn out to be a serious barrier to further globalization Case studies presented focus on Venezuela Brazil the Middle East Iran and Russia **The Globalization Syndrome** James H.
