Globalization Second Edition A Critical Introduction:

Globalization, Second Edition Jan Aart Scholte, 2005-10-07 This is a systematically revised and updated new edition of a highly acclaimed text which was an immediate bestseller on courses around the world The second edition takes a broader perspective giving increased coverage of other dimensions of globalization alongside its core focus on the rise of supraterritoriality which the author argues is globalization's most distinctive feature

Theorizing Globalization Marko Ampuja, 2012-07-25 In this work Marko Ampuja offers a critical reassessment of mainstream perspectives on globalization challenging their media centrism and their lack of historical materialist analysis of global capitalism and the power of neoliberalism

Environmentalism of the Rich Peter Dauvergne, 2018-02-09 What it means for global sustainability when environmentalism is dominated by the concerns of the affluent eco business eco consumption wilderness preservation Over the last fifty years environmentalism has emerged as a clear counterforce to the environmental destruction caused by industrialization colonialism and globalization Activists and policymakers have fought hard to make the earth a better place to live But has the environmental movement actually brought about meaningful progress toward global sustainability Signs of global unsustainability are everywhere from decreasing biodiversity to scarcity of fresh water to steadily rising greenhouse gas emissions Meanwhile as Peter Dauvergne points out in this provocative book the environmental movement is increasingly dominated by the environmentalism of the rich diverted into eco business eco consumption wilderness preservation energy efficiency and recycling While it's good that for example Barbie dolls packaging no longer depletes Indonesian rainforest and that Toyota Highlanders are available as hybrids none of this gets at the source of the current sustainability crisis More eco products can just mean more corporate profits consumption and waste Dauvergne examines extraction booms that leave developing countries poor and environmentally devastated with the ruination of the South Pacific island of Nauru a case in point the struggles against consumption inequities of courageous activists like Bruno Manser who worked with indigenous people to try to save the rainforests of Borneo and the manufacturing of vast markets for nondurable goods for example convincing parents in China that disposable diapers made for healthier and smarter babies Dauvergne reveals why a global political economy of ever more more growth more sales more consumption is swamping environmental gains

Environmentalism of the rich does little to bring about the sweeping institutional change necessary to make progress toward global sustainability

The Planetary Turn Amy J. Elias, Christian Moraru, 2015-04-30 A groundbreaking essay collection that pursues the rise of geoculture as an essential framework for arts criticism The Planetary Turn shows how the planet as a territory a sociopolitical arena a natural space of interaction for all earthly life and an artistic theme is increasingly the conceptual and political dimension in which twenty first century writers and artists picture themselves and their work In an introduction that comprehensively defines the planetary model of art culture and cultural aesthetic interpretation the editors explain how the living planet is emerging as distinct from older concepts of globalization cosmopolitanism and

environmentalism and is becoming a new ground for exciting work in contemporary literature visual and media arts and social humanities Written by internationally recognized scholars the twelve essays that follow illustrate the unfolding of a new vision of potential planetary community that retools earlier models based on the nation state or political blocs and reimagines cultural political aesthetic and ethical relationships for the post Cold War era **Business, Government and Globalization** Owen E. Hughes, Deirdre O'Neill, 2008-07 The rise of globalization and heightened debate over trade protection competition and the environment have created unprecedented challenges for businesses and governments worldwide These are systematically assessed in this important new text *Global Governance* János Hoós, 2006 In this sweeping and ambitious study of global governance Professor Jnos Hos gives an outline account of the social political and economical forces that have major impact on the future of the world He examines why the globalized world entering the 21st century brings with it unprecedented economic social and security dangers Fortunately at the same time unlimited economic social and security developments are equally possible The fate of mankind to either eliminate the dangers or utilize the possibilities depends on the ability to establish and employ responsible efficient global governance Without such governance the devastating consequences of globalization may be unavoidable This book sets forth a theoretical and practical rationale of global governance and also examines existing features of its success and weakness It elaborates the dilemmas and dangers that global governance must face and in the last chapter outlines a prospectus for global governance The book **Special Operations Forces** Emily Spencer, 2011 In order to expand the dialogue of Canadian Special Operations Forces and their unique range of capabilities with their partners within the defence community the media and the Canadian public a symposium was held at the Royal Military College of Canada in 2010 This volume represents an amalgam of the presentations and ideas that were put forward by scholars and military practitioners in order to both educate as well as create discourse on the subject of SOF Beginning with the Canadian SOF legacy and how it has evolved to meet the nation's needs it moves on to look at crucial components of force development and ways in which SOF help to shape the area of operations It explores important issues such as the role of SOF as an economy of effort economy of force option in the contemporary operating environment as well as the budding media SOF relationship *Asian and Pacific Migration Journal*, 2003 *Globalization in the 21st Century* Berch Berberoglu, 2010-03-15 This book examines the development and transformation of global capitalism in the late 20th and early 21st century It analyzes the dynamics and contradictions of the global political economy through a comparative historical approach based on class analysis After providing a critical overview of neoliberal capitalist globalization over the past three decades the book examines the emergence of new forces on the global scene and discusses the prospects of change in the global economy in a multi polar direction in the decades ahead The book concludes by focusing on the mass movements that are playing a central role in bringing about the transformation of global capitalism *Global Political Economy* Theodore H. Cohn, 2008 Praised for its authoritative coverage of theory and

history Global Political Economy places the study of IPE in the broadest global context Written by one of the field's leading scholars this text helps students understand the fundamental importance of international political economy and make sense of current events in the global economy Its three areas of focus globalization North North relations and North South relations encourage students to connect theory and history with practice explore domestic and international economic interactions and examine the critical relationship between economic and security issues *The Political Economy of International Capital Mobility* Matthew Watson, 2007-07-03 Matthew Watson draws a distinction between the spatial and the functional mobility of capital allowing fresh insights into existing work on the subject whilst repoliticizing the very idea of capital being in motion The dynamics of capital mobility and the patterns of risk exposure are illustrated through four detailed global case studies

The development of the Mexican low- and middle-income housing market since the economic crisis of 1994 Michael A. Braun, 2009-03-01 Master's Thesis from the year 2007 in the subject Politics Region Middle and South America grade 2.6 Free University of Berlin Latin America Institute Department for International Politics course International Relations language English abstract A devaluation of the Peso in 1994 threw Mexico into economic turmoil triggering the worst recession for over half a century Since then the nation made an impressive recovery on many scenes ranging from economics to society Also the housing market has improved dramatically for various reasons such as significant policy changes Only the general systematic housing shortage the under supply of mortgages and the under capitalization of developers still hindered further growth This was yet addressed by the Fox government introducing new approaches and special agencies to keep social stability and enhance further economic growth Therefore the thesis points on the rather recent developments of the Mexican housing market including the question how it became the way it is Furthermore the political and economic motivations and influence of both public and private local and foreign actors to the market without which neither it would not have grown that much nor will grow as projected are highlighted Moreover potential obstacles to further market growth and increased stability such as an ongoing lack of capital are named and promoted along with ideas beyond like environmentally friendlier approaches that are in the long term favor of the Mexican society The Globalization of Security Bryan Mabee, 2009-05-21 The Globalization of Security is an important rethinking of the connections between globalization and security focusing on a conceptual examination of the role of the state combined with key case studies The book provides an analysis of the changing nature of security issues through three interlinking ways of conceptualizing the globalization of security the expansion of the scope of threat thinking about security in global terms and the development of transnational networks of power Three cases are examined to provide potential examples of the globalization of security nuclear weapons and the globalization of threat the globalization of the arms industry and the global security aspects of migration and citizenship The book provides a novel historical sociological approach to the globalization of security advancing both the understanding of security and the theory of state power in international relations **The Korean Journal of Policy**
