Gcse Maths 28 February 2013:

English Studies: The State of the Discipline, Past, Present, and Future N. Gildea, H. Goodwyn, M. Kitching, H. Tyson, 2014-11-28 An accessible and wide ranging consideration of concerns facing English Studies in its surrounding context of the university and society The contributors to this volume seek to trace in the face of current challenges historical and contemporary debates surrounding English Studies *Learning with Mobile and Handheld Technologies* John Galloway, Merlin John, Maureen McTaggart, 2014-11-20 As technology evolves we are ever more reliant on the use of handheld and mobile devices yet what do we know about their impact on learning While there is a lot of interest in mobile technology many schools still aren't sure how to best use it for learning and teaching *Learning with Handhelds and Mobiles* explores this landscape and offers examples of how these technologies have been used for learning how the problems that have arisen are being addressed and offers ideas for the future This invaluable book gives a voice to teachers and educators using mobiles and technology enhanced learning in and out of schools for regular school work and for innovative projects through exciting partnerships like Apps for Good *Learning with Handhelds and Mobiles* shows the changes that are taking place within schools as a direct result of these emerging technologies and contains case studies with accounts of best practice in a variety of settings including primary secondary and special schools and learning beyond their boundaries The book also explores themes of pedagogy communication and affordances collaborative learning individual creativity and expression self directed and informal learning and outdoor education The learning potential of handheld and mobile devices has excited teachers and educators but until now there has been no structured systematic overview available along with reflections on how this technology is changing educational practice This book brings these together to provide a clearer picture of what is currently a fragmented area and offers expert views of how we can understand these and where it may take us next *Secondary Maths in Action* Emma McCrea, 2015-07-11 In *Secondary Maths in Action* experienced curriculum expert and maths teacher Emma McCrea offers insights into the complex task of teaching maths Taking an evidence informed stance Emma first explores the age old question of why we study maths and the important role it plays in our lives and in society Next she examines several pertinent debates in maths those of pupil grouping mastery and gender Finally we are taken on a grand tour of curriculum pedagogy and assessment as the fundamental pillars of great teaching Additionally the book includes four rich case studies revisited throughout the curriculum pedagogy and assessment chapters which help to showcase how these ideas can be applied in various contexts so you can really see what it all looks like *In Action* *Parliamentary Debates (Hansard)*. Great Britain. Parliament. House of Commons, 2012 **A University Education** David Willetts, 2017-11-17 Universities have a crucial role in the modern world In England entrance to universities is by nation wide competition which means English universities have an exceptional influence on schools a striking theme of the book This important book first investigates the university as an institution and then tracks the individual on their journey to

and through university In A University Education David Willetts presents a compelling case for the ongoing importance of the university both as one of the great institutions of modern society and as a transformational experience for the individual The book also makes illuminating comparisons with higher education in other countries especially the US and Germany Drawing on his experience as UK Minister for Universities and Science from 2010 to 2014 the author offers a powerful account of the value of higher education and the case for more expansion He covers controversial issues in which he was involved from access for disadvantaged students to the introduction of 9 000 fees The final section addresses some of the big questions for the future such as the the relationship between universities and business especially in promoting innovation He argues that the two great contemporary trends of globalisation and technological innovation will both change the university significantly This is an authoritative account of English universities setting them for the first time in their new legal and regulatory framework

Language Debates Various, 2021-11-25 This book captures an urgent moment for language teaching learning and research At its core are a series of debates concerning gender stereotyping the place of linguistics in modern languages language activism multilingualism and modern languages and digital humanities Taken together these debates explore the work that languages and that those who learn and speak them do in the world as well as the way we think through and in a language and are shaped by it Language Debates acknowledges the history of language teaching and the current realities of language teaching and learning It is bold in suggesting ways forward for reform and for policy setting languages and language learning at the heart of a consciously transformative set of goals This book is therefore essential reading for academics language teachers policy makers students activists and those passionate about progressing language learning and teaching The editors and contributors make up a multilingual and multicultural team who work across languages cultures and borders with a globally informed approach to their work Uniquely the debates in this volume are based on events with participants in the Language Acts and Worldmaking Debates Series and or workshops within the wider research project and take into account the ensuing discussions there Each debate is accompanied by an interview which serves as a model on how to continue the conversation beyond the printed pages of the book You can also discover ways to join the debate through links on the Language Acts and Worldmaking series website www.jmlanguages.com/languageacts which includes recorded debates additional materials and more information about the series Like all the volumes in the Language Acts and Worldmaking series the overall aim is two fold to challenge widely held views about language learning as a neutral instrument of globalisation and to innovate and transform language research teaching and learning together with Modern Languages as an academic discipline by foregrounding its unique form of cognition and critical engagement Specific aims are to propose new ways of bridging the gaps between those who teach and research languages and those who learn and use them in everyday contexts from the professional to the personal put research into the hands of wider audiences share a philosophy policy and practice of language teaching and learning which turns research into action provide the

research experience and data to enable informed debates on current issues and attitudes in language learning teaching and research share knowledge across and within all levels and experiences of language learning and teaching showcase exciting new work that derives from different types of community activity and is of practical relevance to its audiences disseminate new research in languages that engages with diverse communities of language practitioners **The Times Index** ,2013-02
