**Empire and the Peasant Proprietor** Preet S. Aulakh, 2025-09-18 As the British Empire consolidated its geographical possession of distant lands by the 19th century the agrarian nature of its colonies necessitated careful considerations about land tenure relationships After intense debates around property rights and political economy several land laws were enacted across the Empire between 1868 and 1875 which recognised the proprietary rights of peasant cultivators Empire and the Peasant Proprietor examines this transformative shift in the imperial approaches to land tenure Through a comparative analysis of historical land tenure arrangements in three diverse colonial sites Punjab Ireland and Prince Edward Island the book identifies two crucial mechanisms which facilitated the institutionalisation of peasant proprietorship One there was a fortuitous ideological alignment between important governing agents in the three colonies

Two the debate about the impact of land reform in the colonies on the sanctity of English principles was redirected allowing for inter colony analogies and precedents to support the proprietary rights of peasant cultivators Empire and the Peasant Proprietor demonstrates the importance of these reciprocal influences within the imperial system and provides insight into contemporary challenges of secure land rights for a large proportion of the global population that continues to be dependent on agriculture for sustenance This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations
