The CEO Whisperer Manfred F. R. Kets de Vries, 2020-12-15 At this critical junction in the history of humankind leaders that are proficient in magical thinking aren't going to solve our problems Creating alternative realities is not the answer We need a very different kind of leadership leaders who can resist the calls of regression and whose outlook is firmly based in reality We need leaders who analyze and draw conclusions from or use their own experiences as a development tool face their strengths and weaknesses and critique their own experiences in order to build new understandings In this very personal and entertaining book Manfred Kets de Vries one of the gurus in the field of leadership studies offers his thoughts on leadership and life reflections written for executives and the people who deal with them As a psychoanalyst and leadership professor let loose in the world of renowned global organizations as a passionate educator and scholar or just a human being at the receiving end of heart rending emails he examines the pitfalls of leadership and the challenges for the professionals who work with senior executives in today's AI focused world He points out why leaders can derail and what steps they can take to prevent this from happening Ultimately this book encourages you to know yourself but makes no bones about the challenge it represents Understanding our inner theatre will always be an uphill struggle Kets de Vries points out why deep dives into our inner world are always fraught with many anxieties Included in the many subjects covered by the author are the loneliness of command the management of disappointment the destructive role of greed the impact of stubbornness the role of storytelling the importance of wellness and the role of corporate culture In addition the book addresses the important topic of how to create great teams and best places to work Furthermore the book touches on endings the ending of our career and the growing realization of the inevitable ending of our life As time grows short Kets de Vries emphasizes that we have no time to lose in dealing with our anxieties regrets and the things we spend much of our life determined not to see Taking a deep dive into self knowledge requires courage and support and he is here to guide you through it

Understanding Human Development Grace J. Craig, Wendy L. Dunn, 2006 This chronologically organized text has an applied focus and is intentionally selective in the topics it includes so that the full text can be managed within one semester. It assumes no prior psychology exposure making it perfect for students of nursing social work and education in addition to psychology but it does not attempt to address in depth those issues covered extensively in Introductory Psychology courses. Rather the text reflects the field of Human Development in its current state with emphasis on developmental processes and their explanations. The research base of the text is current and solid and the book emphasizes depth of content over research process.
